The Island School's outreach mission is to foster meaningful relationships through education, conservation and sustainability to advocate living well in a place. We aim to achieve this through a purposed and intentional series of programs that engage local schools, youth, families, educators, community leaders and local partners.

We are offering highly motivated individuals the opportunity to develop their outreach and education skills working within a cross-cultural environment. This is an excellent role for someone who wants to get valuable experience working in a dynamic team that delivers experiential outreach and education programs.

**Internship Responsibilities**
- Support the running of outreach programs including after school homework clubs, math and literacy support, community gardening, swim club, plastic club, and young men’s leadership program
- Assist with outdoor environmental education programs for local primary school, middle school and high school students at the Cape Eleuthera Institute and Center for Sustainable Development
- Assist with planning educational experiences, enforcing rules and monitoring the well being of students and their chaperones/instructors
- Supporting logistics, orientating participants to their surroundings, basic marine ecology and environmental stewardship, beach clean-ups and snorkelling
- Participate and represent the organisation at community events.
- You will be living in an isolated tight knit community, taking care of one another is core to our mission

**Internship Requirements**
This position requires flexibility, perseverance and the ability to work long hours with a can-do attitude.
The ideal applicant:
Will be at least 21 years of age and have completed or be in the process of completing an undergraduate degree
Will have previous experience working in a cross-cultural setting with a developed level of empathy and kindness towards others
Should have the desire to work with students of all ages and have experience teaching or supervising students in an outdoor setting
Have a background in marine and environmental science and/or education
Will hold a CPR and/or wilderness medical certification
Must be able to swim in water deeper than standing depth and be comfortable working on boat

To apply please submit the [intern application form](mailto:outreach@islandschool.org) with a cover letter, resume, and contact information for three references in a single PDF to outreach@islandschool.org
