The Cape Eleuthera Institute represents an integral and innovative part of the Cape Eleuthera Foundation, which encompasses a diverse range of education, outreach and research opportunities. Established in 2006, CEI continually strives to offer efficient and adaptable research facilities that are capable of hosting a great variety of projects. Our close proximity to the water front allows us to easily access the near shore and marine environment and efficiently collect scientific data. Our fleet of research boats and extensive supply of SCUBA diving equipment are all housed within one area, The Boat House. This acts as a hub for water based activities and plays an important part in the smooth running of all scientific and educational expeditions.

**A Unique Opportunity**
The SCUBA intern will assist with the day-to-day running of the Dive Locker, ensuring all dive equipment is in full working condition and ready to be used for CEI and Island School activities. Working with and around high pressure cylinders (SCUBA tanks), ensuring a safe working space on the boat dock and dive deck, maintaining and repairing dive gear are just some of the daily expectations. The intern should also be on hand to help with any CEI research projects or Island School excursions, providing surface support or actively getting involved with scientific data collection.

**Preferred Qualifications**
This position requires flexibility, perseverance, and the ability to work long hours with a can-do attitude. The ideal applicant:
- Must be a minimum age of 20 years or older
- Should have competent swimming abilities and be comfortable working in/on the water
- Able to learn on the job and be willing to get their hands dirty
- CPR certified
- Must hold an Open Water diving qualification or higher

In addition, the opportunity to pursue a more advanced certification during your internship may be available upon further inquiry.

To apply please submit the [intern application form](#) with a cover letter, resume, and contact information for three references in a single PDF to blairrobertson@islandschool.org
