

# PACIE Annual Conference 2017

October 5-7, 2017  
Harrisburg, PA

In collaboration with the Pennsylvania State  
Modern Languages Association (PSMLA)

## “Capitol”-izing on Languages and Global Education

Since 1969, the Pennsylvania Council for International Education (PACIE) has worked tirelessly to prepare students for success in our increasingly interconnected world. Today, we are the leading authority and advocate for global education in Pennsylvania.

Between the growing need to compete in a globally-interdependent workforce, and the increasing diversity of our society, the necessity of providing students with global skills and knowledge has never been stronger. The joint PACIE + PSMLA 2017 Conference will provide teachers at every level with the knowledge and tools to seamlessly integrate global education into their curricula.

### Featured sessions include:

- **The Unbounded Classroom: Using Technology to Help Students Experience Global Cultures**
- **Utilizing Gamification to Structure “Globalization” and Drive Global Engagement**
- **Going G-L-O-C-A-L: Countering Nativist and Populist Discourses with Place-Based Education and Global Engagement**
- **Teaching About Refugees: Practical Approaches to Teaching Cultural Competency**
