LOCAL TELEPHONE EXCHANGE SERVICE
APPLICATION AND GENERAL PROVISIONS

A. APPLICATION

1. This Tariff applies to Local Telephone Exchange Services of the Waldron Telephone Company - hereinafter referred to as the Telephone Company - in exchanges in Michigan as designated herein.
2. Local Telephone Exchange Service is that of furnishing facilities for telephone intercommunication between customers within a Local Service Area.
3. The provision of service is subject to regulations specified in the M.P.S.C. Tariffs of the Telephone Company, which tariffs as they now exist or as they may be revised, added to, or supplemented by superseding issues are hereby made a part of this Tariff.

B. EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment or regulation.
- (I) Signifies an increased rate or new treatment resulting in an increased rate.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate, or new treatment resulting in a reduced rate.

C. GRANDFATHERED SERVICES

A. "Grandfathering" of Existing Service Offerings No Longer Offered for New Installations

GENERAL

There are certain service offerings which have been discontinued to new customers but continue for specific customers who are subscribing to them at the time of their discontinuance. These exceptions to regular Tariff provisions are referred to as the "grandfathering" of the customers involved. The service offerings continued on this basis are identified in the following tariffs and are subject to the conditions specified in paragraph 2 below.

2. Service Offerings and Rate Treatments

Grandfathered service offerings are continued only for existing customers at existing locations. The rates for grandfathered services are subject to change in the same manner and to the same extent as regular service offerings. No new or additional "grandfathered" services will be furnished. Where a new customer takes over existing telephone service, with or without a change in directory listing, where the customer initiates a change in class of service or where there is a break in the continuity, the "grandfathered" service is no longer available. The renting or leasing of the premises on which the service is provided to someone other than the existing customer voids the furnishing of the grandfathered service, whether or not the telephone service remains in the name of the original customer.

GENERAL REGULATIONS

CLASSIFICATION AND USE OF TELEPHONE SERVICES

A. APPLICATION OF BUSINESS AND RESIDENCE RATES

1. The determination as to whether telephone service should be classified as Business or Residence is based on the character of the use to be made of the service. Service is classified as business service where the use is primarily or substantially of a business, professional, institutional, or otherwise occupational nature. Where the business use, if any, is incidental and where the major use is of a social or domestic nature, service is classified as residence service if installed in a residence.
2. Business rates apply at the following locations, among others:
 - a. In offices, stores, and factories, and in quarters occupied by clubs, churches, lodges, fraternal societies, schools, colleges, libraries, hospitals and other business establishments.
 - b. In residence locations where a place of residence is in the immediate proximity to a place of business and it is evident that the telephone in the residence is or will be used for business purposes; and in residence locations where an extension is located at a place where business rates would apply.
 - c. In the residence of a practicing physician, dentist, veterinary, surgeon, or other medical practitioner who has no service at business rates at another location.
 - d. In any residence location where there is a substantial business use of the service and the customer has no service elsewhere at business rates.
3. Residence rates apply at the following locations among others:
 - a. In private residences, in the residential portion of hotels, apartment houses, boarding houses, churches, or institutions when the use of the service is confined to the domestic use of the customer and the listings of a business character are not furnished.
 - b. In the residence of a practicing physician, dentist, veterinary, surgeon or other medical practitioner provided that such residence is not a part of an office building and provided the customer has service charged for at business rates at another location.
 - c. In the residence of a nurse.

B. LOCATION AND USE OF TELEPHONE SERVICES

1. The service and facilities furnished are intended only for communications in which the customer or user authorized by the Telephone Company has a direct interest and shall not be used for any purpose for which a payment or other compensation shall be received by them or either of them from any other person, firm or corporation for such use, or in the collection, transmission or delivery of any communication for others - except that these provisions do not apply to the handling of messages accepted for transmission by customers who are engaged in a public telegraph business nor to such other cases as are specifically referred to in the Telephone Company's Tariffs, nor where such use is casual.
2. Use of Business and Residence Telephone Services:
 - a. Business subscriber telephone service - excluding service in hotels - is furnished only for use by the customer, his employees and representatives - except as otherwise provided in the Telephone Company's Tariffs. (C)
