SERVICE CHARGES (CONT'D)

A. Application of Charges (Cont'd).

3. Premise Visit Charge: A Premise Visit Charge applies to each customer's order which requires a visit to the customer's premises. Service work in several buildings of a customer located on the same continuous property requires one charge per premise visit.

A "premises" is a building, or a portion of a building or buildings, on the same continuous property occupied by the customer. All space for offices occupied by a customer on the same or separate floors of one building are considered as a single (or same) premises.

"Continuous" property refers to an uninterrupted plot of land within the same block and occupied by one customer (i.e., a parcel of land enclosed but uncrossed by public thoroughfares; railroad tracks, rivers and alleys are not public thoroughfares).

"Building" refers to a structure on one foundation or two structures on separate foundations with a common wall or abutting walls with ready access from one structure to the other by means of doorways or permanent openings through the intervening wall or walls. Structures in the same or different block occupied by one customer and connected by passageways shall be considered as the same building if the passageway is actually used as a continuation of the space in the two buildings and not principally used as a walkway.

The Premise Visit Charge does not apply for a premise visit required solely to remove or disconnect customer disconnected items or service, or to change or modify equipment for Company reasons.
