Availability	License-based subscription Downloadable at Apple Store and Google Play Store

ruok? Emergency Communication Platform

Emergency Alert – Immediately notify all users of an emergency and provide instructions and updates via push notifications, text and email. Alerts are date-stamped. Users' devices continue to display the alert until the emergency is dismissed.

Updates – Administrator can send date/time-stamped updates and instructions to the community via push notifications, text and email.

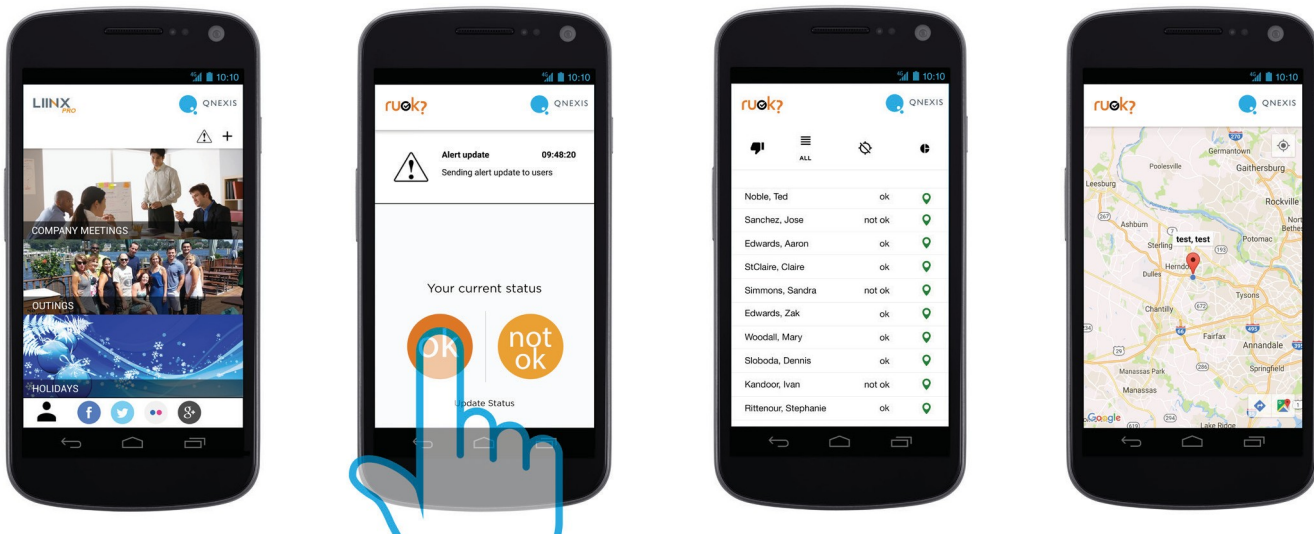

OK / Not OK – Allows all users to check in with the administrator and confirm whether they are safe.

Geo-locator – GPS pinpoints the location of each user so emergency responders can provide help where it's needed.

Status Dashboard – Administrators get a real-time view of all members' status, including a list of those who checked in and who have not.

Chat – Allows the administrator to communicate directly with individual members when additional information is needed.

LIINX Professional enables everyone in your organization to stay connected and informed on all activities and announcements by combining mobile alerts with email, digital signage and websites. Plus, the RUOK? ("Are You Ok?") platform ensures emergency notices are received by everyone no matter where they are – including alerts, instructions and updates. RUOK?

also allows the organization to quickly account for everyone's status and send help where it is needed.

BEYOND TRADITIONAL COMMUNICATION.

Mobile apps deliver dynamic information to reach your organization more effectively.
