### ABOUT CSCA:
Citizen Schools California has been bringing Citizen-driven learning into the classroom, inspiring middle school students to discover and achieve their dreams since 2002.

Since then, we have served over 10,669 students, partnered with over 124 corporate and community partners, and engaged over 2,562 volunteers.

### INNOVATION SPOTLIGHT:
This fall, we launched the Corporate Explorers Program, where students will visit corporate partner offices over the course of 10 weeks. They will participate in hands-on activities with professionals from various departments - like sales, marketing, HR, and IT - gaining important career-building skills and learn about the professional opportunities that await them.

### FACT:
In our first year of partnership at Jose Hernandez, the percentage of students scoring in the lowest performance level on the SBAC in English Language Arts decreased by 33%.
