Citizen Schools Massachusetts is our flagship program. We have been bringing Citizen-driven learning into the classroom, inspiring middle school students to discover and achieve their dreams in the Baystate since 1995.

To date, we have served over 19,730 students, partnered with over 440 corporate and community partners, and engaged over 11,861 volunteers.

INNOVATION SPOTLIGHT:
This fall, we launched the Alumni Leadership Council, a year-long program for 9th grade Citizen Schools alumni, focused on a series of strategic projects to support the current 8GA class, advise Citizen Schools on future 9th grade programming, and build students 21st century and professional skills.

FACT: At Trotter Innovation School, students in 5th grade are classified as having the highest academic growth in the state in ELA and math.
