603 6th Street, Oregon City, Oregon

The Stevens-Crawford Heritage House is an American Foursquare home built in 1908 by prominent real estate investors Harley Stevens and his wife, Mary Elizabeth. Practical construction and craftsman architecture make this home one of the finer dwellings in Oregon City. The House was restored to much of its original Edwardian splendor through donations of furnishings and textiles. Renting the Stevens-Crawford Heritage House for your next event will transport you back in time to a home from the early 20th century.
