

## St Paul's Way Foundation Sports Premium 2017-18

At St Paul's Way Foundation School we are committed to encouraging our children to enjoy active and healthy lifestyles. We know that the habits and attitudes children form with us will have an impact on their later health and well-being. We want all our children, whatever their sporting ability, to enjoy and engage in a range of active pursuits.

All primary schools receive funding from the government to make additional and sustainable improvements to the quality of PE and sport they offer. For the academic year 2017-18 St Paul's Way Foundation School receives £16,810.

As part of our commitment to healthy and active living, we have used our sports premium funding to enhance the quality of sports provision in a number of ways:

- Extension of our new scheme of work
- Enhanced swimming provision (beyond the National Curriculum requirement)
- After-school sports and active clubs (e.g. football and boxing)
- Helping to fund our *Healthy Living Week*
- To replenish and extend PE resources
- To replenish and extend resources that encourage activity at lunch times and break times
- Paying for 'taster' activities in unusual sports (e.g. fencing and golf)
- Paying for trips to try out unusual sports
- Helping to pay for the costs of running workshops for parents to promote more active and healthy lifestyles.

Children from Reception learning fencing
