Steps to Reach The Top

Timeline of your marketing campaign

First Step

First, we perform in-depth market research and competitor analysis, and explore your value propositions.

Second Step

Tracking code setup and implementation so we monitor the analytics on your campaign.

Third Step

Next, we perform keyword research to find out what keywords would be best for your campaign.

Fourth Step

It's go time. Now that you have reviewed the keywords that we're targeting, it's time to start optimizing.

Fifth Step

A team of SEO experts will optimize your account to gradually improve performance and ROI.

Problem

The customer wanted to generate more leads for his local dog training and daycare business. She was only generating leads from local referrals and networking events. She was struggling because she didn't have a steady stream of new leads coming in on a daily basis.

Solution

We ran a highly optimized SEO campaign to start generating organic traffic and leads from their website. We were able to land multiple first page placements for highly competitive keywords within the first couple of months.

Problem

The customer wanted to generate more leads for his local pool repair services. He never had any online presence, not even a website.

Solution

We started off building a responsive website which we knew would convert visitors. We then ran a highly optimized SEO campaign to start generating organic traffic and leads from their website. We were able to land multiple first page placements for highly competitive pool repair keywords within the first couple of months.
