SIZE MEASUREMENT GUIDE

Size Chart

When measuring for bracelets, measure tightly where your wrist is broadest. Measure your wrist with a flexible, soft tape measure just below the wrist bone (below the wrist bone is the area between your hand and the wrist bone). This is your actual wrist size.

***Tip:** If you don't have a tape measure handy, use a strip of paper or thin string, and mark it where it overlaps on your wrist. Then lay the strip flat to measure up to the mark using any ruler.
