

CADDIE SAFETY & SOCIAL DISTANCING PROTOCOL

Caddies have been instructed to follow all CDC and WHO guidelines for reducing the risk of transmission.

PRACTICE SOCIAL DISTANCING!

Social distancing is deliberately increasing the physical space between people to avoid spreading illness. “Staying at least six feet away” from other people lessens your chances of transmitting and catching this virus.

IF YOU HAVE A CADDIE:

Expect:

A concise and professional introduction: Your caddie will inform you of his or her intent to practice social distancing while providing the best caddie experience possible. As a safety measure, cleaning the golf ball and clubs will be your responsibility.

Teeing Ground: Your caddie will position the bag by the tee marker and step away six feet. The caddie will then give you a hole description. Once all players have hit, he or she will get out ahead to complete their fairway responsibilities.

In the Fairway: The same principles apply. The caddie will place the bag in the appropriate position, step six feet away and communicate your yardage. Depending on the outcome of your shot, please take your putter or wedge(s).

On and Around the Green: No one is to tend or touch the flagstick. Carefully repair ball marks when appropriate without getting too close to your fellow players or caddies. Your caddie will provide a read if requested. The caddie will not clean your golf ball or share his or her towel.

IF YOU HAVE A FORECADDIE:

Expect:

A concise and professional introduction: Your caddie will inform you of his or her intent to practice social distancing while providing the best caddie experience possible. As a safety measure, cleaning the golf ball and clubs will be your responsibility. The caddie will work out in front of you, provide hole descriptions/line of play, locate your tee shots, provide yardages, read putts, and maintain the course. He or she will communicate to you through hand signals.

Teeing Ground or Leaving the Green: Your caddie will provide you with a hole description from six feet away and then move into forecaddie position.

In the Fairway: The caddie will communicate your yardage from six feet away or more. He/she will maintain the course after you leave. Depending on the outcome of your shot, please take your putter or wedge(s).

On and Around the Green: No one is to tend or touch the flagstick. Carefully repair ball marks when appropriate without getting too close to your fellow players or caddies. Your caddie will provide a read if requested. The caddie will not clean your golf ball or share his towel.
