Thank you for your interest in being a Preceptor for the WI Population Health Service Fellowship! Please complete the form below to be considered for as a placement site.

The program matches Fellows to placement sites based on several considerations including, but not limited to: Fellow interest areas, opportunity for Fellow growth, opportunity for Fellows to meaningfully contribute and provide service to sites, and mentorship capacity. The information on this form will be used to inform Fellow and placement site matching.

More about the Fellowship Program:
The Wisconsin Population Health Service Fellowship Program is a two-year service and training program designed for early career individuals in public health and allied sciences. Fellows are placed in practice-based settings in community, non-profit, governmental, and/or health service organizations around Wisconsin. Through a curriculum focused on health equity and collaborative leadership, Fellows leave the program with a health equity lens applied to their practice as well as tangible skills in public health programming and management.

First Name

Last Name

Email
Have you served as a preceptor to a Wisconsin Population Health Service Fellow in the past? If so, please describe when in the text box.

- No
- Yes

Have you ever served as a mentor or preceptor other than for a UW Population Health Service Fellow? If so, please describe in the text box.

- No
- Yes

How would being a preceptor and participant in the Fellowship Program contribute to your work as a public health professional? (e.g. mentorship, health equity leadership, network development)

The Foundational Practices for Health Equity outline many different ways organizations can work to operationalize health equity into their public health practice. Considering these practices generally, please use the following categories to indicate which best describes your organization’s work to operationalize health equity in your practice.
If you select "Other", please use the text box to describe.

- Not yet considered: Our organization has not considered undertaking these practices and has not identified a need to do so.
- Not started work on: Our organization has not started to take action on these practices but has identified a need and plans to do so.
- Have started work on: Our organization has started to implement some of these practices.
- Progress being made: Our organization has demonstrated activity with many of these practices.
- Embedded/Institutionalized: At least some of these practices are ongoing, systemic, integrated, and comprehensive within our organization. There is a plan for sustainability.
- Not Applicable (N/A): This does not apply to our organization.
- Other:

  

How might a fellow engaged in a curriculum focused on health equity, collaborative leadership and tangible skills in public health programming and management contribute to your organization's health equity work?

Please provide a brief overview of possible projects a Fellow might work on if placed in your organization.

How do you believe a Fellow will benefit by working at your placement site?

What skills are you looking for in a Fellow?
A limited number of Fellows slots are funded by the Wisconsin Partnership Program each year. The program can also recruit and place additional fellows if there are funds to support additional placements. Support for a Fellow costs approximately $72,000 - $84,000 per year, which includes the Fellow's salary, fringe, professional development costs, and required administrative costs. The final budget for each year is dependent on several factors and is determined in advance of the placement. Most “leveraged” Fellows are fully supported by the placement site, but many are partially funded. This is discussed in further detail when we are making placement decisions. Are you able to financially support a fellow? Please be assured that your answer will not impact your eligibility to host a Fellow and we know that circumstances may change. Your answer is for our preliminary planning purposes.

- I am able to fully financially support a Fellow
- I am able to financially support 50-100% of a Fellow
- I am able to financially support < 50% of a Fellow
- I am not able to financially support a Fellow
- I am not sure

Given our current pandemic, what do you anticipate the working arrangements to be at the start of the Fellowship (July 2023)? If you are selecting "Contingent on the status of the pandemic in July 2023", please feel free to use the text box to describe further.

- Fully remote
- Combination of remote and in-person
- Fully in-person
- Contingent on the status of the pandemic in July 2022

Please share any other information that you would like prospective Fellows or the program to know about your interest in being a placement site.
