ABOUT

Award-winning Lighting Design

neolight brings a wealth of experience and understanding to each and every project and provides a personal service to each client to ensure satisfaction at every stage.

Operating from four offices around the world, and with a further joint venture in Edinburgh, we are able to work on projects large and small anywhere around the globe.

Using technical expertise to create lighting schemes we pride ourselves in providing creative and innovative solutions balanced with the most up to date and energy efficient technology.

We bring life to internal and external spaces, injecting passion and a sense of creative design into luxury hotels, resorts, bars, restaurants, public venues, commercial offices, and private residences.

We transform these areas into exquisite and uplifting places, enhancing the architecture and interior design to help create spaces that people want to meet in, enjoy, and experience.

DUBAI OPERA

Dubai, UAE

Dubai Opera is the definitive destination for performing arts in Dubai, embracing the role as the creative heart of the city with the iconic dhow-shaped building.

It gives the exceptional ability to transform into three modes; from a theatre into a concert hall, and into a 'flat floor' mode becoming a banquet or event hall, all of which offers bespoke lighting seamlessly integrated into each function.

Specialist lighting design from concept to completion was provided for all front of house and landscape areas, plus from detail design to completion for the auditorium space.

Architect: WS Atkins
Interiors: WA International

CURRENT PROJECTS

Bluewaters, Dubai

Located off the coast of the Jumeirah Beach Residence coastline, the Bluewaters island features retail, residential, hospitality and entertainment zones.

Our scope for specialist lighting design includes two luxury hotels, residential apartments, landscape and facades, road and highways lighting, souk and retail walkways and the main plaza and entertainment zone adjacent to the 210m ferris wheel.

CURRENT PROJECTS

Cityland Mall

Located beside Global Village in Dubai and due to launch in 2018 the Cityland Mall is a 2.2million sq.ft. mall which will not just be home to over 300 stores, but also set to contain a “botanical wonder” 200,000 sq.ft. open air garden.

Our scope for specialist lighting design includes the facade and vast car parking areas, as well as all internal spaces of the mall and the central open air landscape garden.

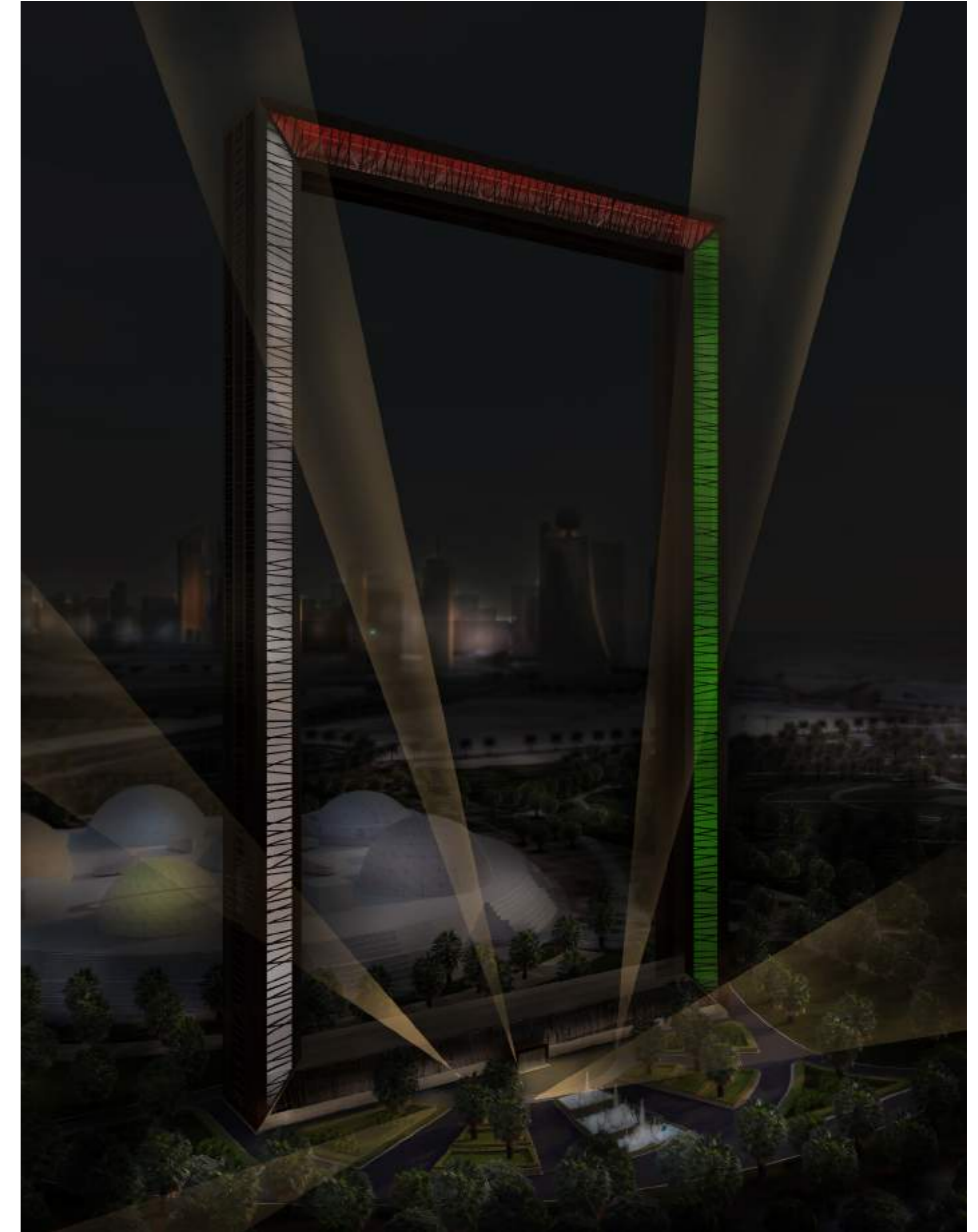

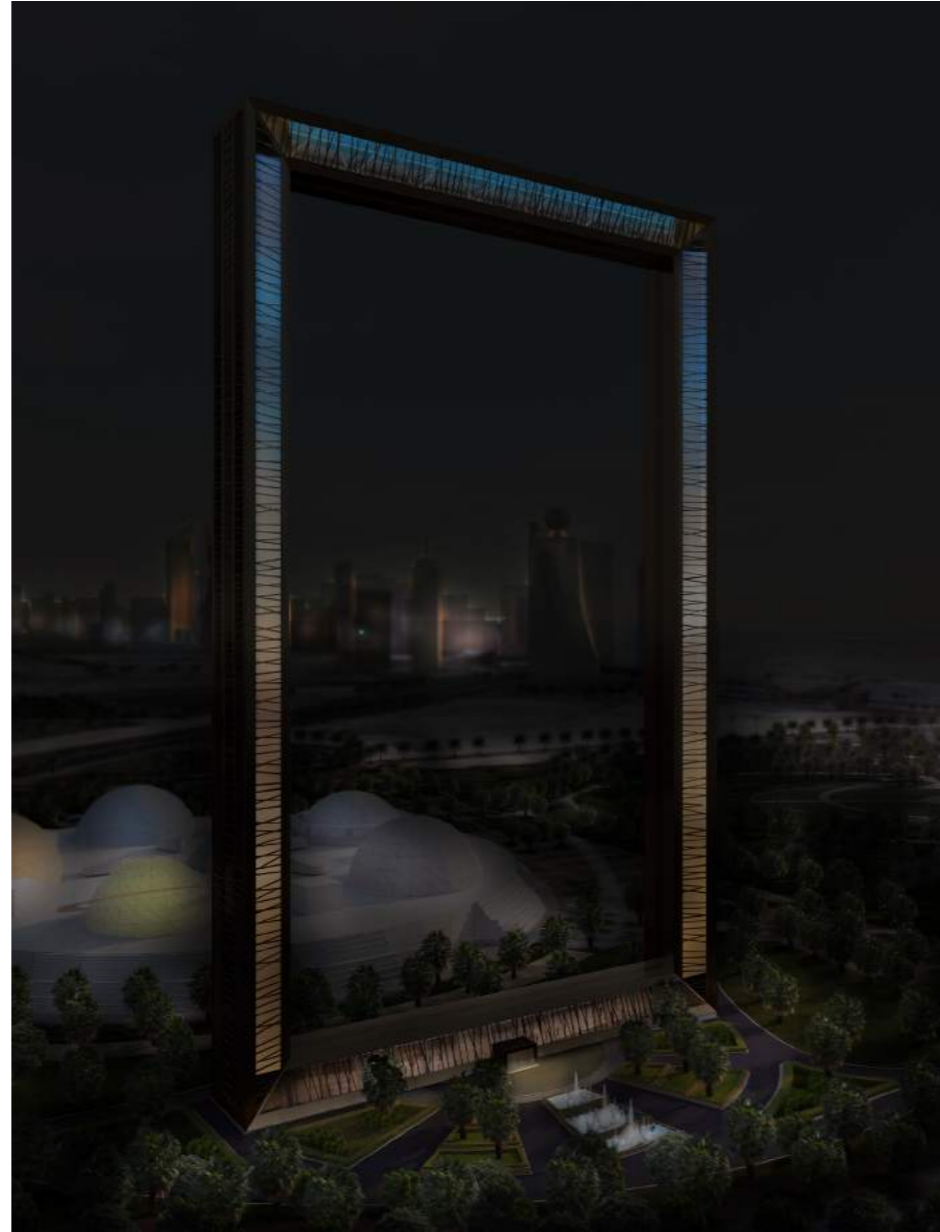

CURRENT PROJECTS

Dubai Frame

The Dubai Frame is a 150m structure located in Zabeel Park. It resembles a rectangular frame and has been conceived to give visitors the best views of both old and new Dubai.

Our scope for specialist lighting design includes the exterior lighting, interior lighting to the lobby, lift cabins, and top level walkway, as well as conceptual options for show and celebration lighting.

CURRENT PROJECTS

Vida Residence

Vida Residence is a 57-storey building located in Downtown Dubai featuring 320 serviced apartment units.

We are providing specialist lighting design for the podium levels and exterior of the tower.

CURRENT PROJECTS

Marsa Al Seef

Marsa Al Seef is a culturally rich retail, hospitality and entertainment destination along Dubai Creek embracing the Emirates' proud maritime traditions.

We are providing specialist lighting design for the two hotels and all landscape areas for Phase 1 and Phase 4 developments.

CURRENT PROJECTS

The Address Boulevard

The Address Residences Boulevard is a five star premium hotel and serviced residences and will be the second tallest building in Downtown Dubai.

Our scope for specialist lighting design includes the facade, surrounding landscape and pool decks, and tower podium.
