

## growing older

Growing older is the attenuation a set  
of all potential life experiences  
to only one  
this is inarguable  
irrefutable  
it is as mathematicians would say  
invariable  
yet artists claim that differences exist  
as multifarious as the different brushstrokes  
which make a painting  
this seems like a contradiction  
or  
perhaps it depends  
on how far away you stand
