BSPID Conference 2017

Friday, 21st April 2017

School of Psychology, Keynes College, Room KLT4, University of Kent, Canterbury CT2 7NP

— Programme —

09:00		Welcome Reception (with coffee/tea)
09:30		Key Note: Dorothy Bishop Is there really a reproducibility crisis, and what, if anything, should we do about it?
10:30		Extended Talks (15+5 min = 20 min talks)
	10:30	Anat Bardi Amity goals: Unveiling a “missing” achievement goal orientation using values
	10:50	Gary Lewis The temporal stability of in-group favoritism is mostly attributable to genetic factors
	11:10	Jana Uher On the generation of personality ratings: Deconstructing the cognitive demands that standardised assessments place on raters
11:30		Coffee/Tea
12:00		PhD Data Blitz (5+5 min = 10 min PhD data presentations)
	12:00	Ziada Ayorech Personalized media: A genetically informative investigation of individual differences in online media use
	12:10	Jennifer Firth The good, the bad and the ugly: Cognitive and affective empathy deficits in the Dark Triad, and their relationship to indirect relational aggression
	12:20	Clara Humpston Deficits in reality and internal source monitoring of actions are associated with the positive dimension of schizotypy
	12:30	Lucy Anne Livingston Can the ability to compensate for cognitive deficits explain individual differences on the autism spectrum?
	12:40	Fiona Patrick Using an online personality questionnaire for rapid recruitment of hard to find participants
	12:50	Emily Smith-Woolley Weak associations between pubertal development and psychiatric and behavioural problems
13:00		Lunch and Poster Session
		Hannah Connolly Disgust is robust: Evidence for a female advantage in facial emotion recognition
		Kaja C. Faßbender Generativity: A genetic analysis of care for the future
		Mark Hardaker Narcissism, self-affirmation and automatic bias to negative evaluative stimuli
		Stefan Leach Can people judge the veracity of their intuitions?
		Antonia O'Neill In the mood for learning? Associations between mood, curiosity and recall
		Zahra Safaryazdi The role of executive function in the relation between ADHD symptoms and substance use

		Liam Satchell The 'Future' of BAS: Towards two distinct streams of trait behavioural approach
		Mary Stewart Social factors as mediators of the relationship between autism spectrum quotient and depression
		David Thorpe & Stuart Conlan Personality as a predictor of the threat superiority effect
		Zeyang Yang An exploration of problematic smartphone use among Chinese university students: Modelling with academic anxiety, academic procrastination, self-regulation and life satisfaction
14:00		Standard Talks, Part 1 (10+5 min = 15 min talks)
	14:00	Alison Bacon Psychopathy and counterfactual thinking
	14:15	Timothy Bates Smart groups need smart people: Evidence that IQ is almost entirely responsible for cognitive performance in teams
	14:30	Rachel Latham Mothers want extraverted, not intelligent or conscientious children
	14:45	Yue Li Is praise for intelligence harmful? Testing mindset theory in 634 10-13 year old children
15:00		Coffee/Tea
15:30		Standard Talks, Part 2 (10+5 min = 15 min talks)
	15:30	Ian MacRae Introducing a workplace measure of subclinical personality disorders
	15:45	Ian Norman Personality characteristics and the prediction of considerate, immediate and committed altruistic intentions
	16:00	Afroditi Pina Dark personality traits and proclivity to engage in image-based sexual abuse
	16:15	Hannah Rachel Scott Investing in imagination: A new approach to understanding learning
16:30		Key Note: Robert Plomin The DNA revolution has come to psychology
17:30		Wine Reception
18:00		Close
19:00		Dinner at Raj Venue, 92 St. Dunstons St, Canterbury CT2 8AD
