

# HOMES, HABITATS & HIDING PLACES

Find these fish and check them off

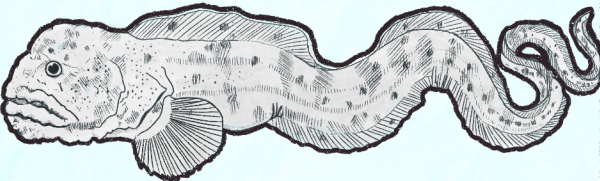

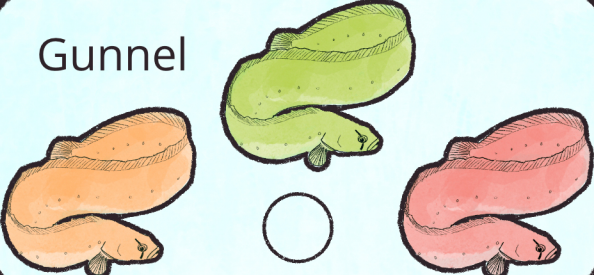

then... help them find their home! Draw a line from the fish to their habitat.

Grunt Sculpin

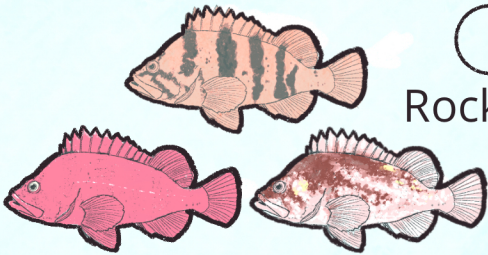

Flatfish

Gunnel

Wolf Eel

Rockfish

Lounging on the sand

Among the kelp

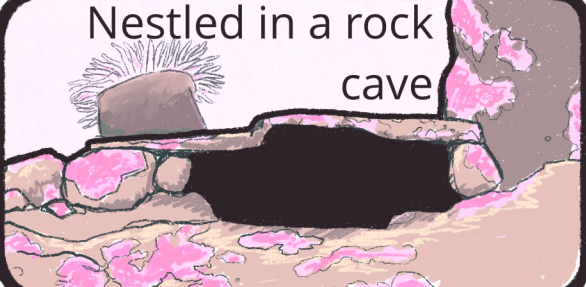

Hidden in eelgrass

Tucked into an empty barnacle

Nestled in a rock cave

# A TALE OF TWO LIFESTYLES

Creatures that live in open water are called **PELAGIC**

Find a pelagic creature in our aquarium and draw it in!

Creatures that live along the ocean bottom are called **BENTHIC**

Find a benthic creature in our aquarium and draw it in!

# HELP US DESIGN A NEW HABITAT

For the perfect habitat follow this recipe:

1 plant  
or seaweed

And of  
course we  
need  
animals!

2 hiding  
places

Draw in a combination of pelagic and benthic animals you've seen in other habitats in our aquarium!

Choose either sand or rocks for the bottom
