

Academic Background

- 2008 – 2012 Doctor of Philosophy
 University of California, Santa Barbara
 Department of Ecology, Evolution, & Marine Biology
- 2005 – 2007 Master of Arts
 Brown University, RI joint program with Marine Biological Laboratory, MA
 Department of Ecology & Evolutionary Biology
- 2000 – 2004 Bachelors of Arts with High Honors in Biology, minor in Sociology/Anthropology
 Swarthmore College, PA

Professional Experience

- 2015 – Present Assistant Professor, Hampshire College
 School of Natural Science

 Associated Five-College Graduate Faculty, University of Massachusetts Amherst
 Department of Organismic and Evolutionary Biology
- 2013 – 2015 NOAA Climate & Global Change Postdoctoral Fellow
 University of California, Irvine
 Department of Ecology & Evolutionary Biology
- 2008 – 2012 DOE Global Change Program Graduate Fellow
 University of California, Santa Barbara
 Department of Ecology, Evolution, & Marine Biology
- 2004 – 2005 Post-baccalaureate Intramural Research Training Award
 National Institutes of Health

Publications

- 2017 **Sistla, S.**, S. Schaeffer, J. Schimel. Plant community regulates soil microbial response to freezing more strongly than the rate or intensity of the freezing process. Submitted.
- Kramer, D., K. Stevens, N.E. Williams, **S. Sistla**, A. Roddy, G. Urquhart. Coastal livelihood transitions and their trans-ecosystem implications in a region undergoing rapid globalization. In revision.
- Hou, S.-L., J.X. Yin, **S. Sistla**, J.J. Yang, Y. Sun, Y.Y. Li, X.T. Lü. Long-term mowing did not alter the impacts of nitrogen deposition on litter quality in a temperate steppe. *Ecological Engineering* 102:404-410.
- 2016 Crowther, T., et al. Quantifying global soil carbon losses in response to warming. *Nature*.

- Sistla, S.**, A. Roddy, N. E. Williams, D. Kramer, K. Stevens, S. Allison. Agroforestry practices promote biodiversity and natural resource diversity in Atlantic Nicaragua. *PLoS ONE* 11(9): e0162529.
- Wang, X., **S. Sistla**, X. Wang, X. Han, X. Lü. Carbon and nitrogen contents in particle-size fractions of topsoil along a 3000 km aridity gradient in northern China. *Biogeosciences* 13: 3635–3646.
- Spasojevic, M., C. Bahlai, B. Bradley, B. Butterfield, M.N. Tuanmu, **S. Sistla**, R. Wiederholt, K. Suding. Scaling up the diversity–resilience relationship with trait databases and remote sensing data: the recovery of productivity after wildfire. *Global Change Biology* 22: 1421–1432. doi:10.1111/gcb.13174
- 2015 **Sistla, S.**, A. Appling, A. Lewandowska, B. Taylor, A. Wolf. Stoichiometric Flexibility in Response to Fertilization along Gradients of Environmental and Organismal Nutrient Richness. *Oikos* doi: 10.1111/oik.02385.
- 2014 Han, X., **S. Sistla**, X. Lü, Y. Zhang, X.G. Han. Hierarchical responses of plant stoichiometry to nitrogen deposition and mowing in a temperate steppe. *Plant and Soil* 382: 175 – 187.
- Sistla, S.**, E. Rastetter, J. Schimel. Responses of a tundra system to warming using SCAMPS: A stoichiometrically coupled, acclimating microbe-plant-soil model. *Ecological Monographs* 84 (1): 151 – 170.
- 2013 **Sistla, S.** and J. Schimel. Seasonal patterns of microbial extracellular enzyme activities in an arctic tundra soil: Identifying direct and indirect effects of long-term summer warming. *Soil Biology & Biochemistry* 66: 119 – 129.
- Sistla, S.**, J. Moore, R. Simpson, L. Gough, G. Shaver, J. Schimel. Long-term warming restructures arctic tundra without changing net soil carbon storage. *Nature* 497 (7451): 615 – 18.
- Recommended for *Faculty of 1000*. Featured in: *Scientific American online*, *Sciencenews.org*, *Anchorage Daily News*, *Redorbit.com*, *The International Polar Foundation*, *Science360*, and other publications.
- 2012 **Sistla, S.** and J. Schimel. Stoichiometric flexibility as a regulator of carbon and nutrient cycling in terrestrial ecosystems under change. *New Phytologist* 96 (1): 68 – 78.
- Sistla, S.**, S. Asao, J.P. Schimel. Microbial N-limitation in tundra soil and its detection: Implications for Arctic SOC cycling. *Soil Biology & Biochemistry* 55: 78 – 84.
- Gutiérrez, N., S. Valencia, T. Branch, D. Agnew, A. Stern-Pirlot, A. Smith, C. Nannes, R. Selden, J. Thorson, T. Essington, C. Costello, D. Hoggarth, P. Bianchi, **S. Sistla**, J. Cornejo, A. Larsen, S. Teck, O. Defeo, K. Sainsbury, R. Hilborn, K. Baum, N. Williams. Eco-labels: A reliable indicator of stock status for seafood consumers. *PLoS ONE* 7(8): e43765.
- 2010 Viola, D., E. Mordecai, A. Jaramillo, **S. Sistla**, L. Albertson, J. Gosnell, B. Cardinale, J. Levine. Competition-defense tradeoffs and the maintenance of plant diversity. *Proceedings of the National Academy of Sciences* 107 (40): 17217 – 17222.
- 2005 Cebra-Thomas J., F. Tan, **S. Sistla**, E. Estes, G. Bender, C. Kim, P. Riccio, S. Gilbert. How the turtle forms its shell: A paracrine hypothesis of carapace formation. *J. Experimental Zoology B*: 558 – 569.

Book Chapters and other publications

- 2017 **Sistla, S.** Exploring the Cost of Scientific Curiosity. In: *Curiosity Studies: Towards a New Ecology of Knowledge*. University of Minnesota Press, edited by: Zurn, Perry and Arjun Shankar (invited).
- 2014 von Wettberg, E., J. Ray-Mukherjee, N. D'Adesky, D. Nesbeth, **S. Sistla**. The Evolutionary Ecology and Genetics of Stress Resistance Syndrome (SRS) Traits: Revisiting Chapin, Autumn and Pugnaire (1993). In: *Plant Ecology and Evolution in Harsh Environments*, edited by: Rajakaruna, N., R. Boyd, T. Harris, NOVA Publishers.
- 2013 **Sistla, S.** *Understanding the importance of terrestrial responses to climate change: an Arctic tundra case study*. Mundus Maris (invited). Available at: <http://work.mundusmaris.org/index.php/en/publications/scientific/892-tundra>
- 2003 Cho, M., M. Cohen, **S. Sistla**. *What is a "Normal" Phenotype?* DevBio: A Companion to Developmental Biology. Sinauer Associates. Edited by Scott F. Gilbert and Emily Zacki.

Grants

- 2016 - 2019 DOE Systems Biology Grant. The "Who" and "How" of Microbial Control over Soil Carbon Dynamics: a Multi-omics, Stable Isotope, and Modeling Approach. Co-Investigator (PI Kristen DeAngelis, UMASS Amherst, Co-Investigators: Erin Conlon, UMASS Amherst, Serita Frey and Stuart Grandy, University of New Hampshire). \$1,887,107
- 2016 – 2017 Stokes Foundation. \$5,280
- Dr. Lucy Innovation in Education Course Development and Faculty Research Grants.
Hampshire College. \$15,000
- Hampshire College Faculty Development Grant. \$4000.
- 2013 UCSB *ScienceLine* Life Sciences award. 2013.
- 2012 NSF Doctoral Dissertation Improvement Grant. \$15,000
- 2011 Integrated Network for Terrestrial Ecosystem Research on Feedbacks to the Atmosphere and Climate grant to support collaborative exchange. \$800
- Worster Grant, undergraduate research mentorship award. \$3,000
- Luce Environmental Science to Solutions Fellowship. \$6,000
- 2008 Leal Anne Kerry Mertes Grant. UC Santa Barbara research grant. \$3,000
- Explorer's Club Exploration Fund research grant. \$3,500

Fellowships

- 2013 – 2015 NOAA Climate & Global Change Postdoctoral Fellowship. \$120,000

2008 – 2012 DOE Global Change Program Graduate Fellowship. \$105,000

2004 NSF Research Experience for Undergraduates. \$3,000

2003 Howard Hughes Medical Institute research fellowship, Swarthmore College. \$3,000

Travel grants

2014 Natural Capital Project Annual Meeting and Training. Stanford University.

2013 Dissertations Initiative for the Advancement of Climate Change Research VIII Symposium. (Declined due to schedule conflict).

2011 27th New Phytologist Symposium: *Stoichiometric flexibility in terrestrial ecosystems under global change*. Biosphere 2, AZ.

Enzymes in the Environment: Ecology, Activity, and Applications International Conference. Young Scientist Award. Bad Nauheim, Germany.

INTERFACE meeting: *How Do We Improve Earth System Models: Integrating Earth System Models, Ecosystem Models, Experiments and Long-Term Data?* Captiva, FL.

2009 Graduate Student Association pre-doctoral travel grant, UC Santa Barbara.

Working Groups

2017 *Understanding the role of climatic and biological factors in regulating stoichiometric responses of organisms and ecosystems to nutrient enrichment*. Hanse-Wissenschaftskolleg Institute for Advanced Study. Delmenhorst, Germany. Invited participant.

2014 - 2017 *Playing dominoes with tipping points? Exploring the linkages between anthropogenically-driven shifts in marine and terrestrial biodiversity and ecosystem services in a rapidly globalizing coastal region within a biodiversity hotspot*. National Socio-Environmental Synthesis Center, the Helmholtz Centre for Environmental Research, and the Synthesis Centre within the German Centre for Integrative Biodiversity Research Halle-Jena-Leipzig (Co-PI with Daniel Kramer, MSU).

Press coverage: *Thinking across disciplines to drive science and policy*.

http://www.huffingtonpost.com/antonia-sohns/thinking-across-disciplin_b_7423628.html

2014 *Woodstoich III: A Workshop to Advance Integration Across Biology*. Sydney, Australia.

2013 *Scaling Up: Population and Community Ecology Workshop for Early Career Scientists*. ESA working group. Invited participant.

Teaching

2017 *Global Change Ecology*. Hampshire College.

Innovations for Change: Problem Solving for the Future. Hampshire College. Team taught.

Ecosystem Ecology: A Biogeochemical Perspective. Hampshire College.

- Art & Ecology: Understanding Changing New England Environments*. Hampshire College. Team taught.
- 2016 *Ecosystem Ecology: A Biogeochemical Perspective*. Hampshire College.
Environmental Conflict in the Anthropocene. Hampshire College.
- 2015 *Innovations for Change: Problem Solving for the Future*. Hampshire College. Team taught.
Integrated Sciences: Where does the Water Go? Water, Carbon, and Nutrient Flow in a Living Building. Hampshire College. Team taught.
- 2012 *Ecosystem Processes*. Instructor, UC Santa Barbara.
- 2009 *Understanding a Changing World – From Molecules to Ecosystems*. Instructor, UC Santa Barbara. School for Scientific Thought program for high school students supported by NSF.
- 2007 Sheridan Center Teaching Certificate I. Brown University.

Pedagogical development

- 2017 Quantitative Undergraduate Biology Education and Synthesis. Faculty network participant.

Students advised

- 2016 – Present Grace Pold, UMASS Amherst (PhD committee member)
- 2016 – 2017 Josia DeChiara, Hampshire College (Division III Chair)
Rachel Rosenberg, Hampshire College (Division III member)
- 2015 – 2016 Chiara Forrester, Hampshire College (Division III Chair)

Invited Talks

-
- 2017 **Sistla, S.** *Exploring the ecological impacts of utility-scale solar arrays: A New England case study*. University of New Hampshire.
- 2016 **Sistla, S.** *Exploring the Cost of Scientific Curiosity. Curiosity in Multidisciplinary Perspective Symposium* at the University of Pennsylvania.
- 2015 **Sistla, S.** *Ecological feedbacks to global change: A terrestrial ecosystems perspective*. UMASS Amherst.
- Sistla, S.** *New frontiers in soils: Future challenges and knowledge gaps*. Ecological Society of America.
- 2013 **Sistla, S.** *Arctic permafrost and carbon cycling: Implications for future carbon budget and climate scenarios*. Arctic Futures Symposium: Research to inform policymaking session. Hosted by the International Polar Foundation. Brussels, Belgium.
- Sistla, S.** *The scientific context of climate change: Deconstructing arguments denying the anthropocene*. Soka University of America. Aliso Viejo, CA.
- Sistla, S.** *Understanding the effects of warming on Arctic systems*. St. Olaf College. Northfield, MN.

2012 **Sistla, S.**, E.B. Rastetter, J.P. Schimel. *Exploring the effects of long-term warming on tundra plant-soil feedbacks through changes in community structure and extracellular enzyme activity using a modeling approach*. Enzymes in the Environment: Incorporating Enzyme Activities Into Biogeochemical Models. Colorado State University. Fort Collins, CO.

Sistla, S. *Global climate change: Coupling people and the planet*. UCSB Adventure Programs staff lectures. University of California, Santa Barbara.

2007 **Sistla, S.** *Climate change and its implication for Alaskan native cultures*. Haffenreffer Museum of Anthropology. Bristol, RI.

2006 **Sistla, S.** *Linking aboveground and belowground responses to chronic soil warming: Characterizing the determinants of the net C balance of a temperate forest in a warming world*. University of Rhode Island, Department of Natural Resources Science. Kingston, RI.

Sistla, S. *RI and Climate Change*. RI Chapter of the Sierra Club Member's Night. Brown University, Ladd Observatory. Providence, RI.

Recent Contributed Talks

2017 †Rosenberg, R.*, J. DeChiara*, **S. Sistla**. Characterizing the ecological effects of utility-scale solar arrays on fallow farmland and other disturbed landscapes: Optimizing synergies in energy generation and terrestrial conservation goals. Ecological Society of America Annual Meeting. Portland, OR.

Pold, G., **S. Sistla**, E. Kyker-Snowman, K. M. Geyer, S. Whitney, S. D. Frey, A. S. Grandy, E. Morrison and K. M. DeAngelis. All bacteria are not born E. coli: Incorporating physiological measurements and genomic signatures into soil carbon models. Ecological Society of America Annual Meeting. Portland, OR.

† Work featured on VT public radio program.

* Denotes undergraduate author.

Service

- Ethics and Common Good committee member. Hampshire College.
- Marlboro College external examiner (2017).
- Consulting Editor: *Plant and Soil*. Reviewer: *Biogeochemistry*, *Biogeosciences*, *Climate Change Responses*, *Ecology*, *Ecosystems*, *FEMS Microbiology Ecology*, *Global Change Biology*, *Molecular Ecology*, *Journal of Geophysical Research: Biogeosciences*, *Nature Geoscience*, *New Phytologist*, *Oecologia*, *Plant and Soil*, *Soil Biology and Biochemistry*, *NSF Geobiology and Low-Temperature Geochemistry Program*, *NSF Office of Polar Programs*, *NSF Division of Environmental Biology*.
- Volunteer for the Climate Literacy and Energy Awareness Network (CLEAN), which is building a collection of peer-reviewed, freely available resources about climate and energy science.
- Volunteer for *ScienceLine*. Answer science questions from K-12 students.
- Participant in: Integrated Network for Terrestrial Ecosystem Research on Feedbacks to the Atmosphere and Climate Network, Research Coordination Network: Enzymes in the Environment, NSF Arctic System Science Program's Changing Seasonality Initiative.
