

# DELIBERATION DATA

2017-2022

Since 2014, we've designed and delivered **40 deliberative engagement processes** across Australia

*(plus hundreds of community engagement projects that integrate deliberative elements and principles).*

We've had the honour of working across many sectors and issues, and acknowledge the investment made by organisations and decision-makers.

**Congratulations to the 1880, randomly selected, everyday citizens involved.**

These participants have committed an incredible 56,210 hours to tackling some of the most important and complex problems of our time, ranging from water security and obesity to gender equality and energy pricing.

## DELIVERY MODE

**17**  
Face-to-face
