

# COMPLEXION

## PERFECT BLUSH

### STORY

This perfectly pigmented blush is our own formulation and can be used to shade, brighten, enhance, and define the shape of a face. The formula goes on sheer and results in a gorgeous finish.

Ultra satin and lightweight, this powder brushes on to a smooth finish. The color never looks dry or flat and is great for contouring face shapes. Layer up for stronger color or tone it down by swiping it over with one of our non-latex sponges wedges.

### BEST WAY TO USE

Massage into the skin using circular, upward strokes. Remove with several splashes of warm water followed by a cool water splash.

These formulas contain a great deal of pigment and are put into a fine texture before being pressed. As a result, they offer great coverage that can go from sheer to opaque with easy blendability.

As a general guideline the following colors were chosen for each of the following complexions.

**Light Complexion** - #4 and #5

**Medium Complexion** - #1, #3 and #7

**Dark Complexion** - #1, #2 and #7

**Highlighter** - Blush #6, a LimeLight Must-Have and works well on all skin complexions.
