

LIPS

ENDURING LIP COLOR

STORY

This long-lasting lip color was made to create a bold wear alone or undertone lip base. It will last for hours looking untouched and will not dry out your lips.

As you work with this product, try it as an undertone and layer other colors on top. For example, try using Cherry Pie and putting Lip Color 13 over it. What you get is a red-pink color that is stunning!

These lip colors smell like dessert and are one of the most positively reviewed products we sell.

BEST WAY TO USE

Use alone or top with your favorite Creamy Lipstick for a look that is unique. For a deep, sophisticated look, use Enduring Lip Color as a base, add Creamy Lipstick, and top with our Signature Lip Gloss.

Enduring Lip Colors perform best on lips that are hydrated and exfoliated.
