## PERFECT MASCARA

### STORY

We took our favorite formula - one that does not flake off - mixed it with lengthening fibers and added a "pine tree" brush, the favorite shape among most professional artists.

This mascara is a miracle worker for many women who wish their lashes were longer as it adds just a bit of extra length to make a noticeable, gorgeous difference.

### BEST WAY TO USE

Starting at the base of lash, swivel the wand back and forth as you move the wand toward the end of the lash. Repeat as needed until desired look is achieved. For natural-looking long lashes, follow application with a clean, dry wand.

Since there are lengthening fibers in this mascara, over time the formula may clump up around the tube neck. If this happens, simply clean off the brush head with paper towel, insert the wand back into the tube, and then clean the brush head again.

We strongly suggest that mascaras are replaced every 1-2 months depending on frequency of use.

### INGREDIENTS

Water (Aqua), Acrylates Copolymer, Beeswax, Butylene Glycol, C18-36 Acid Triglyceride, Polybutene, Copernicia Cerifera, (Carnauba) Wax, Cetearyl Alcohol, Glyceryl Stearate, PEG-100 Stearate, PVP, Propylene Glycol Dicaprylate/Dicaprate, Silica, Dicetyl Phosphate, Panthenol (Pro Vit. B5), Sericin, Xanthan Gum, Ceteth-10 Phosphate, Aminomethyl Pro-panol, Gossypium Herbaceum (Cotton) Seed Oil, BHT, Sodium Dehydroacetate, Nylon-6, Caprylyl Glycol, Phenoxyethanol, Potassium Sorbate, Hexylene Glycol, [+/- (May Contain): Titanium Dioxide (77891), Iron Oxides (77491, 77492, 77499), Black 2 (77266), Carmine (75470), Ultramarines (77007), Chromium Oxide Greens (77288), Chromium Hy-droxide Green (77289), Ferric Ferrocyanide (77510)]
