

Sustainability Successes

In 2015 we worked with [Eureka Recycling](#) and achieved the following:

- [composted](#) over 15,000 lbs
- [recycled](#) 10,000 lbs
- DIVERSION RATE: 91%

These efforts created a reduction in greenhouse gas emission equivalent to 17 metric tons of carbon dioxide. The same as taking 3.6 cars off the road for a year!

Thank you for participating in our success!

Facts on Food

Scratch Kitchen

We make our dishes on-site from scratch. While this means it may take a little longer than other quick service restaurants, it is fresh and less processed!

Local Networks

Many items not made on-site are locally sourced or made locally such as our kimchee, monkey bar, and fry bread just to name a few.

Drinking Alcohol

Alcohol may not be removed from the designated area. This area can be treated like a 'beer garden' and alcohol outside is illegal.

Thank you for following the rules so we can all have fun!

Compost & Recycle

Sandcastle aims to be as near zero-waste as possible. To meet this goal, we ask you to compost all your food and soiled dishes. Cups too! Return reusable items as indicated.

Thank you for your support!
