Established in 1997, Stokes Nature Center is a non-profit nature education organization. Our mission is to promote exploration, provide education, and foster appreciation and stewardship of our natural world for people of all ages.

Description:
We are looking for a highly-motivated pre-professional digital photographer looking to bolster their professional portfolio. Applicants for this position must have their own photography equipment and processing software as applicable, strong verbal and written communication skills, as well as fluent knowledge of social media platforms including Instagram. The Photography Intern position provides opportunities for portfolio expansion, real world experience, and project based non-profit marketing. As an intern, you must be flexible and able to work well in a team environment, pitching in where help is needed. University credit may be available.

Job Type: Internship
10-15 hrs a week

Reports to: Director of Education

Note: This is an unpaid internship. Your time at SNC will be supporting incredible programs that provide quality nature education to people of all ages.

General Responsibilities:
● Capture relevant digital photography and videography for Stokes Nature Center including project and program photos for grant reporting, and nature photos within Cache National Forest for general promotional campaigns
● Learn and maintain the visual identity standards of Stokes Nature Center’s brand through photography
● Assist with marketing content development and support other marketing activities
● Other tasks as required

Qualifications:
● Experience: outdoor exploration, Leave No Trace practices, photography of multiple subject areas, photography software editing and formatting for social media
● Proficient with Canva and Google Suite
● Ability to transport self to photograph sites

Specific Skills:
● Excellent photography skills on a pre-professional level
● Excellent written and verbal communication skills
● Knowledge of Cache Valley, Cache National Forest, or a drive to learn
● Motivated, self-starter with an ability to prioritize time-sensitive assignments

Benefits:
- Job Experience
- Gain references
- Professional development opportunities
- Networking opportunities
- Potential to receive university credit

To apply:

Applications are due by September 25th by 5:00pm - but will remain open until filled. Send resume and brief portfolio of work to Patrick Kelly, Director of Education, at: education@logannature.org with your name and “Photography Intern” in the subject line.
