Design With Me!

AN EARTHY, FEMININE AESTHETIC WITH A FRESH TAKE ON A MODERN RUSTIC DESIGN.

DESIGN ELEMENTS

Consider what brings a design to life: colour palette, texture, and lighting!

FOCAL POINT

Let the flowers do the talking!
Flowers are the best way to bring your colour palette to life. Here, a softer base of light pinks and peaches is amped up with accents of bolder pink, coral, and peach.

THE DETAILS

My favourite detail is always the place setting. Combine earthy textures (pottery vases, deckled edge place cards) with clean, modern lines (plate, glassware).

PULL IT ALL TOGETHER

A romantic invitation suite with custom wax seal, fringed linen napkins, gold flatware, a luscious bouquet.

Or, I could just
design it for you.

I design beautiful weddings for great people. Focusing on colour play and an elevated, garden-inspired style, I specialize in dreaming up compelling designs that you haven't seen at your friends' weddings.

THANKS FOR PLAYING ALONG!
