Publons Reviewer Connect: Quick Reference Guide

Publons Reviewer Connect is the leading reviewer search tool to help you quickly find, screen, and connect with fit-for-purpose reviewers, combining the power of Publons exclusive peer review database with the Web of Science author and citation index.

These helpful videos details how to use Publons Reviewer Connect:
https://publons.com/benefits/reviewer-connect/videos

If your ScholarOne site does not yet have Publons Reviewer Connect activated, please contact your Publons account manager or email partners@publons.com

1. Select Reviewers
Publons Reviewer Connect works in ScholarOne Manuscripts on the “Select Reviewers” tab

2. Researchers
The Publons Reviewer Connect algorithm queries Web of Science and Publons to return up to 30-precise reviewer suggestions, while flagging potential conflicts of interest and linking to external profiles.
3. **Add**
   Click on the “Add” button to add the reviewer into your reviewer list.

4. **Dig deeper**
   Click on “Dig deeper on Publons.com” to get directly to the Publons platform where you can gain more reviewer profile information.

---

**Researcher profiles**

1. **Researcher**
   Expand a suggested reviewer to reveal more information on them, including their research fields, a biography and institutional affiliations.

2. **Profile Links**
   You are able to view the researcher’s external profiles.

3. **Email**
   Click the email icon to reveal the researcher’s email address.
1. **Conflicts of Interest**  
Potential conflicts of interest are listed.

2. **Verified Peer Review**  
Peer review and editorial history are displayed for each suggested researcher.

3. **Relevant Articles**  
Links to authored publications matching the search are listed for each suggested researcher.
