Kindergarten Readiness Calendar

August 2020 - July 2021

Activities, games, songs, stories and helpful hints to prepare your child for a successful Kindergarten year!
The Kindergarten Readiness Calendar will assist in preparing early childhood age children for success in Kindergarten. Parents can use this calendar to access easy-to-implement ideas, games and activities that will help to prepare your child for an easier transition to Kindergarten. The design of the calendar was specifically chosen for families to be able to use every detail when working with their child.

Each calendar month contains various pictures that can be used to promote conversations along with “Helpful Hints” that will introduce important everyday skills to enhance your child’s development. The vocabulary listed each month will contain words that will be used within the month and may be new to your child. These words may require a simple explanation when applying within the daily activities.

Feel free to add additional activities that your child enjoys based upon their developmental ability. Each month will contain an information page listing the Early Learning Developmental Standards addressed during the month along with conversation starters that can be used with each picture, and a listing of the titles of books that will be used during the month.
