

MagiKitch'n®

HEAVY DUTY HIGH PERFORMANCE GRIDDLES

www.MagiKitchn.com

MagiKitch'n®

Our full line of premium quality MagiKitch'n Griddles are the best in the industry. Available in 5 sizes, gas or electric, standard or high efficiency.

Standard 24" cooking depth as well as 30" cooking depth that offers more cooking surface area.

Whatever line of MK Griddles you prefer; gas, electric, high efficiency, or deep design, MagiKitch'n has the griddle and option for you.

MK Griddle Gas & Electric

MKH – MKE

HIGH EFFICIENCY GAS & ELECTRIC

MagiKitchn has two new entries in the high performance griddle category both with outstanding performance characteristics and energy star certification for select models in both plain steel and chromed surfaces.

MKH High Efficiency Gas has successfully lowered the overall btu rating without sacrificing performance. As a matter of fact, The new design has actually IMPROVED performance characteristics of the already great MKG.

- Faster Preheat Times
- Faster Recovery
- Improved Temperature Uniformity
- Standard 24V Solid State Temperature Controls (150°F-550°F) with Matchless Ignition

MKE High Efficiency Electric is unlike any electric griddle on the market.

- Firebar Incoloy sheathed elements are pressure clamped to the bottom of the plate.
- 5.7kW per 12" for fast preheat and recovery.
- Standard with Electronic Thermostat (200°F- 500°F) and optional Solid State Upgrade (150°F-550°F).

Only one thing can top the MagiKitch'n Griddle - **Chrome**

Our superior process will bond Hardened Chrome to the Armour Plate Grade Steel substrate. The hardest substrate in the industry! This surface **CAN NOT CHIP** like other cheaper versions of chrome griddles.

The Polished Chrome Surface provides

- Quick Searing Action,
- Better Caramelization,
- Faster Cook Times,
- Reduced Flavor Migration,
- Cooler Ambient Temperatures,
- Better Energy Efficiency
- Chrome Kit Includes: Scraper, Palmetto Brush, Spatula, and MagiKitch'n Griddle Cleaner
