FOUNDATION GRANTMAKING EXPLICIT PROVISIONS

To Applicant,

Thank you for your interest in lipedema research. Engaging with the Foundation involves the following explicit provisions:

1. The Foundation’s maximum allowable indirect costs are 10% of total direct costs.
2. In an effort to build a lipedema research network, by submitting a Full Application, you agree to serve as a potential reviewer of submitted LOI/Full Applications.
3. The Foundation highly encourages collaborations across current and potential grantees, and may facilitate interactions with potential partners through conference calls and emails. In the event that researchers foresee a fruitful collaboration, the Foundation may facilitate these efforts through a Memorandum of Understanding with all stakeholders.

Sincerely,

Felicitie Daftuar
Founder and Executive Director
Lipedema Foundation
