

HIGH FORCE AUGER & CARDBOARD CRUSHER

DOUBLE YOUR COMPACTION

Combined with the Presto SPN High Force Auger, the PZZ Cardboard Crusher handles large format cardboard and cardboard pallets easily allowing you to more than double your compaction and halve your transport, all in one combination.

A PROVEN DOUBLE-BLOW

First, the PZZ is designed to destroy the integral shape of any loose material, sheets or even pallets; tearing it all to shreds, creating a blockage-free feed into the SPN High Force Auger.

The High Force Auger then compacts this treated material, achieving up to double the bin weights when compared to conventional compactors. As the material has been torn and crushed emptying of the bin is assured even with these higher weights.

EXPECTED BIN WEIGHTS IN TONNES (31M³ BIN)

Cardboard	8.0 +
Cardboard Pallets	9.0 +

TECHNICAL SPECIFICATIONS

Torque	9550 Nm
Dimensions (with 31m ³ Bin)	2820W x 7945L x 2700H mm
Throughput	70 m ³ /hr
Clear Top Opening (W x L)	1380 x 1220 mm
Operational Noise	<65 dB (A)
Electric Motor Size	2.2 + 4.0 kW (PZZ) & 15 (SPN) kW
Cycle Time	Continuous
Power Required	415V 63A (motor start circuit breaker)

- /// DOUBLE YOUR BIN CAPACITY
- /// VERY LARGE CARDBOARD BOXES
