

# ENVIRONMENTAL POLICY STATEMENT

Vecta Design UK is committed to become an industry leader in minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Minimise waste by evaluating its operations and ensuring that they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its vehicles.
- Actively promote recycling both internally and amongst its clients and suppliers.
- Source and promote a product range to minimise the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the company.

Bill Etheridge - Managing Director
