# EqOpTech

## EQUAL OPPORTUNITY TECHNOLOGY

STARTS WITH YOU

[www.eqoptech.org](http://www.eqoptech.org)

# LEVEL THE PLAYING FIELD IN TECHNOLOGY

EqOpTech enables free, equal access to technology and STEM education resources

- Laptop Donations – Silicon Valley Tech companies, schools, and the community donate surplus laptops via laptop donation drives and direct outreach
- Refurbish Laptops – engage students to restore computers to their original functionality to deploy to students in need
- Sunday Friends STEM Workshops – volunteers teach math and coding classes using refurbished laptops to access online programs such as Khan Academy, Scratch, etc.
- Tech Talk & Workshop Series – Silicon Valley tech leaders partner with EqOpTech interns to host hands-on workshops. Talks included Computer Networking & Cybersecurity, UI/UX, CAD Design, Cryptography and Bitcoin, Data Science & Machine Learning, Artificial Intelligence, College Preparation, and Internship Opportunities and more.

# OUR MISSION

EqOpTech (Equal Opportunity Technology) addresses 3 problems with 1 solution

- Provide needy students with technology tools to excel academically
- Teach youth technical and leadership skills while engaging them in community service
- Protect the environment by reviving and reusing old laptops

# EMPOWER AND INSPIRE STUDENTS

EqOpTech empowers and engages students volunteers to gain real life experience while making a meaningful impact on the community

EqOpTech's internship programs gives high school students an opportunity to explore new skills and become community leaders. We celebrate volunteerism, with members being recognized nationally for their public service.

Team members can be engaged in the following project initiatives:

- Computer-in-a-Box refurbishing
- Tech research and problem solving
- Application Development
- Organize laptop donation drives
- Lead and Teach Computer workshops & Tech Talks
- Graphic Design, flyers/ads & marketing collateral
- Marketing, Communications & Media
- Corporate donations campaign
- Grant proposal
- Impact metrics & measurement
