## The Events Edit

### Photo Basel, Switzerland: June 14 - 18, 2017

While Art Basel returns to its namesake Swiss town, the third edition of photography fair Photo Basel will also be taking place over four days in June. 34 galleries will take part this year, bringing together photography from across the world (this year's global reach is larger than ever before), as well as film work which will be on show in *tape/basel*, a new section dedicated to the medium. Additionally, the *not-for-profit* section is a unique opportunity for emerging Swiss photographers to exhibit and features work by nominees of the Young Artist's Prize for Photography. If you're in Switzerland for Art Basel you'd be remiss not to spend some time at Photo Basel too. (Dare we say 'two birds, one stone?')
