

Price Guide

Check out our **Onboarding** document for a more detailed itinerary guide.

Whether you need anything from a live feed work at height survey to a full action aerial video, a few airborne shots to put the finishing touches on a feature clip or property plan, still images for a funky new promo or even something new and exciting that no-one's thought of yet, we're here to help!

Every project is unique and we tailor our pricing to match. The below outlines a basic pricing guide to give you an idea of costs. Prices vary both up and down depending on requirements; including but not limited to equipment, location, duration, crew size and associated risks etc.

We only ever operate with a minimum of two crew, so you don't have to worry about being asked to help with flight operations – leave that to us...

PROJECT	HALF DAY (4hrs)	FULL DAY (8hrs)	EXTRA TIME (per hr)
AERIAL PHOTOGRAPHY	From £299 + VAT	From £599 + VAT	From £75 + VAT
