This is our fourth discussion on the topic of late period stretch glass (1970-2011). In our previous calls, in May and October 2017, and February 2018, we discussed Fenton in-line colors as found on their catalogue pages. Now we are going to switch to the less well-known colors that were made exclusively for QVC. The Fenton Glass Company started selling glass on QVC in the late 1980's. Shortly thereafter stretch glass was introduced to the QVC buying public.
