

BIE/01 - PAPELERA

DESCRIPTION

Small, beautiful and funky. This is a wonderful wastepaper bin. Its spherical base allows the bin to spin around and rock side to side. The most fun product in our collection.

CHARACTERÍSTICS

Waste bin made from injection molded polypropylene. Contains inner iron disc sheet metal 5mm and weighing 400 grams to add stability to the base of the bin.

FINISHES

Bin made from injection texturized polypropylene in different colors. Base made from PP injection always in black. RAL colors available for upper body specified below.

COLOURS

Available RAL colour codes (more colours on a project basis):

WHITE - 9003

ORANGE - 2004

BLUE - 5007

FIRE RESISTANCE

M0 – Metallic weight

M1 – Plastic body of the bin

ENVIRONMENTAL DEGRADATION

Made from 100% recyclable plastic (PP). Materials may be easily disassembled to be recycled

PACKAGING

Packaging made of corrugated cardboard made of two flat linerboards. Product wrapped in plastic. Easily palletized.
