

I SPY LISTS FOR ABECEDARIAN LEVEL B1

These practice sheets are designed to be used *after* a student has completed the B1 workbook to help master and retain the letter/sounds presented in B1 and to reinforce the habit of sounding out unfamiliar words.

Review with your student the target graphemes listed in the directions for each sheet. After reviewing the target letter/sounds with your student, have her underline or highlight these graphemes in the word. After she highlights a grapheme, she should read the word. It is not necessary that the student tap-and-say a word unless she has any difficulties reading it.

If you wish, you may have your student practice saying the primary sounds for the letter/sounds presented on the sheet using the list of isolated letter/sounds at the bottom of the page.

Students should learn the primary sound for each grapheme as indicated in the key word chart below.
