The Intelligent Security | Camera Cover is an aesthetic, ergonomic, elegant and seamless camera privacy solution.

Designed for people who like to have more privacy, security and peace of mind when using smartphones, tablets and computers.

THE ULTIMATE LAYER FOR A CAMERA PRIVACY SOLUTION

Silver

Dark Grey
Smartphones

Computers

Tablets
Our super lightweight design was engineered to allow for a seamless fit on a wide range of smartphones, tablets, laptops and all-in-one desktops. The product consists of two parts, a low carbon steel ring with advanced adhesive and a custom neodymium magnetic disc. The ring sticks to your device with the adhesive and the disc attaches to the ring magnetically.

- Designed to fit and look good on your devices.
- Made of the most suited high-quality steel and neodymium.
- Your finger grips to the disc to hide and unhide your camera.
- The sliding disc allows for easy access to the camera.
- 0.70mm thinness enables you to close your laptop perfectly.
- Close your laptop with the disc in the open or closed position.
- The sliding disc does not touch your device so it does not scratch your device.
- You can position the IS|CC so it does not cover components; Sensors, Face ID and other.
- The design prevents you from having to touch around the camera, keeping that area cleaner.
- You can easily clean the IS|CC and the area around by removing the disc.
- Place it above a case.
- The product is Nickel plated which protects it from wear and water.
- You can use the camera cover as a fidget toy.

Designed in Switzerland 🇨🇭
Manufacturing based in the United States 🇺🇸
"Simplistically elegant piece of add-on to your existing camera system, giving you utmost peace of mind."
- Gear Hungry / July 22, 2018

"One of the best solutions yet."
- Dylan Furness / January 18, 2017

"A must-have for online security."
- Mark / April 17, 2017

"Es el accesorio ideal para portátiles y tablets de los más pequeños, aunque los mayores también verán el accesorio IS|CC como un imprescindible en seguridad."
- Adrián Leiva / January 14, 2017

"The IS|CC works to be a more stylish, functional piece of equipment that can be slide open and closed to allow the camera to be used rather than rendered completely useless with a piece of tape."
- Michael Hensworth / January 10, 2017

Sécurité informatique: En quelques mois, 25'000+ caches pour webcam vendu.
- Par Luca Di Stefano / April 07, 2017
