

CAPABILITY STATEMENT

TRM Environmental Consultants, LLC (TRM) originated as a sole proprietorship in 2012. With the inception of the LLC in early 2014, TRM became a women owned partnership focused on becoming a New York State certified women owned business and USDOT DBE. It's Chief Executive Manager, Catherine Dare, has spent her career developing trusting and lasting relationships with her colleagues and clients. TRM understands the documentation and communication requirements associated with construction observation and the need for appropriate material management/site management plans to prevent cross-contamination, water impacts and unnecessary generation of regulated waste.

Ms. Dare is well versed in the remediation process from remedial investigation to remedy installation, including investigation and data collection, risk assessment and remedy selection. Ms. Dare has teamed with experts in research, training and regulations (RCRA, CERCLA, OSHA, TSCA, CWA, EPCRA, CFATS, and DOT) who have successfully worked with clients on developing strategic environmental solutions. Ms. Dare and the associates of TRM understand the critical nature of field work and environmental support while working with each client to ensure a timely and cost effective environmental solution.

TRM recognizes the need to partner with their clients in order to gain their trust and successfully achieve the client's goals. TRM consistently strives to exceed their client's expectations by developing client specific teams committed to working with our clients to develop short and long term environmental planning and management solutions using strategic, big-picture thinking.

Ms. Dare has provided expert witness support for both private corporations and public agencies regarding the remediation process and its successful achievement of corrective action objectives.

Ms. Dare's partners are well versed in the air and particulate industry and are sought after for their expertise. For more information on our expert professional environmental consulting focused on remediation and engineering, environmental compliance, water management and sedimentation control, ambient and indoor air quality monitoring and modeling, air quality permitting, human health exposure assessments, and many other environmental services including construction observation, please feel free to contact Ms. Catherine Dare directly via voice mail at the corporate headquarters in central New York at (315) 334-3140 or by email at catherine@trmenvconsultants.com.

On behalf of TRM, we look forward to earning your trust and having you as a valued client.

Yours truly,

A handwritten signature in black ink that reads 'Catherine Dare'.

Catherine Dare
