**About** I am a product designer based in NYC. My work combines research and experimentation with visualization and technology to design better experiences that understand people's behaviors and systems.

**Experience** september 2017 - present (freelance)

## **Product Designer at Complex Media**

Design experiences that define and continuously refine UX strategies for Complex's consumers. Responsibilities include: ideation, wireframing, creating visual identity and collaborating with product management.

june 2017 - july 2017 (freelance)

## **UI/UX Designer + Researcher at Language in Motion**

Designed and conducted user research + tests for creating and optimizing the onboarding experience for Language in Motion.

august 2016 - april 2017

## **Design Intern at Sutable**

Designed UX strategies and UI elements for various platforms (mobile and web).

may 2016 - august 2016

## **UX Design Intern at Esri**

Worked with a team of designers and developers to design best UX practices. Created the main experience for Esri's Explorer mobile app and the new Navigator web app.

june 2015 - august 2015

## **QA Intern at Hemispherx**

Systemized and uncovered various data from the QA archives. Verified employee trainings and protocols.

**Education** july 2017 - august 2017

## **School of Visual Arts**

Interaction Design MFA Summer Intensive

fall 2013 - spring 2017

## **University of Pittsburgh**

B.S. Psychology (focus in Cognition) and Minor in Studio Arts
