To whom it may concern,

The U.S. Department of Veteran Affairs (VA), Center for Verification and Evaluation (CVE), has verified StimLabs LLC as a Veteran-Owned Small Business (VOSB). StimLabs LLC serves as an innovative regenerative medicine company that develops, produces, and sells regenerative healing solutions.

StimLabs LLC is eligible to participate in Veterans First Verification Program opportunities with VAs as a verified VOSB in accordance with Title 38 Code of Federal Regulations (CFR) § 74.12. The Veterans First Verification Program provides VAs with unique authority to offer priority to VOSBs over BPA and FSS contracts when considering alike products. This applies even when any SB quota has already been met by the VA.

I served in the United States Marine Corps for 6 years before I eventually left to resume a career in healthcare. I founded StimLabs with a desire to advance the state of regenerative medicine and ultimately improve care for patients. We are proud to provide next generation healing solutions to the veterans who have served us well.

StimLabs LLC can be found on the Vendor Information Pages (VIP) at <https://www.vip.vetbiz.gov>. Please do not hesitate to reach out with any questions.

Sincerely,

John Daniel
Founder and CEO
