

# What is Geography?

# Geography...

is the science of space and place of Earth's surface.

# Geography...

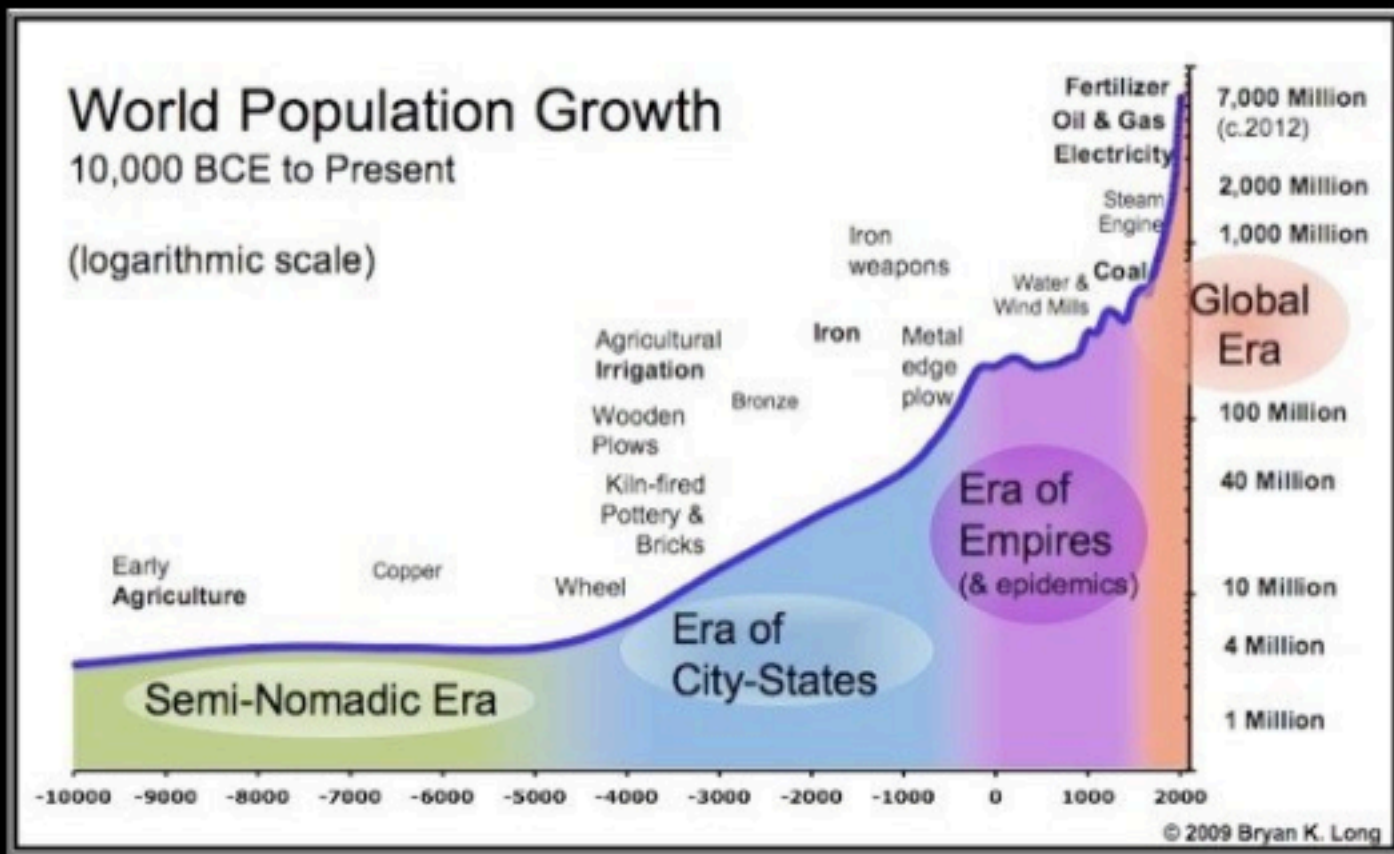

brings together the human and physical  
dimensions of our world

# Geography...

brings together the physical and human phenomena  
that give character to places around the world

# Geography...

describes the ever changing patterns of the world in words, maps, numbers & graphics.

# Geography...

helps bring meaning to the world we live in!

# Geography...

*Are you curious...Want a look?*

captures imagination, stimulates curiosity, & enables us to gain a deeper understanding of our world.
