ACKNOWLEDGEMENTS

Considerable efforts and talents of many individuals helped to ensure the success of the Point in Time count in Kings and Tulare Counties. The Kings/Tulare Homeless Alliance would like to thank the U.S. Department of Housing and Urban Development and the cities of Hanford, Porterville, Tulare, and Visalia for their ongoing support.

SUMMARY

Each year, the Kings/Tulare Homeless Alliance (Alliance) conducts a Point in Time (PIT) count of the number of people experiencing sheltered and unsheltered homelessness within Kings and Tulare Counties. Information and data gathered through the PIT is used by the Alliance and partner agencies to better understand the issues associated with homelessness, including causes, service gaps, unmet housing needs, and homeless trends.

METHODOLOGY

Kings and Tulare Counties conducted their 2022 Point in Time (PIT) count on the night of January 23-24, 2022. Volunteers from local jurisdictions, law enforcement, the faith-based community, non profit partners, and community stakeholders came together to conduct short surveys with people who meet the U.S. Department of Housing and Urban Development's (HUD) definition of homeless. Volunteers canvassed locations where people experiencing homelessness tend to congregate including encampments, libraries, food distribution sites, etc. The PIT Report provides a snapshot of the people experiencing homelessness in Kings and Tulare Counties.

2022 is the first year since 2014 that the PIT count wasn't conducted in collaboration with Project Homeless Connect events. This change in methodology, as well as the weather, number of volunteers, and the volunteers' ability to locate and engage people experiencing homelessness, can all strongly influence the results of the PIT count.

The Kings Tulare Homeless Alliance (Alliance) lead multiple meetings and trainings to plan the PIT count's new methodology. The Cities of Porterville, Tulare, and Visalia, as well as Kings County, each had their own PIT subcommittee lead by two or three people knowledgeable about homelessness in the region. Decisions on canvassing/mapping, incentives, and overall approach were made by each subcommittee and supported by the Alliance.

OVERVIEW OF RESULTS

It must be noted that a 2021 Point in Time (PIT) count wasn't conducted in Kings and Tulare Counties because an exemption was issued from the U.S. Department of Housing and Urban Development (HUD) due to the COVID-19 pandemic. Comparisons to prior year's PIT data are referencing 2020 data, the last year a full unsheltered PIT and Housing Inventory Count was completed.

The 2022 PIT count saw a decrease of 62 individuals (1,297 people in 2020 vs. 1,235 people in 2022), or a 4.7% decrease in the number of people experiencing sheltered and unsheltered homelessness in Kings and Tulare Counties. KTHA feels that the decrease in PIT numbers is the result of the following circumstances:

- New PIT methodology of street canvassing in lieu of centralized Project Homeless Connect events;
- Outreach staff and PIT volunteers anecdotally reported that they believed there was an increase in the number of people experiencing homelessness who are living in their vehicles. These individuals are more difficult to count, which could also result in a decrease in the overall PIT numbers;
- There has been a large effort put in place by some jurisdictions to disperse homeless encampments, which makes an accurate PIT count especially challenging as individuals are no longer residing in centralized locations.

The Kings Tulare Homeless Alliance (Alliance) does not think there was an actual decrease in the number of people experiencing homelessness in Kings and Tulare Counties.

OVERVIEW OF RESULTS (CONTINUED)

The number of people experiencing chronic homelessness decreased dramatically by 204 individuals (531 people in 2020 vs. 327 in 2022), or a 38.4% decrease. This decrease in the number of people experiencing chronic homelessness may be a result of people experiencing first time homelessness as a result of COVID-19 pandemic related job loss and subsequent evictions and/or foreclosures.

More people were accessing emergency shelter beds in 2022 (282 individuals) than in 2020 (227 individuals), however that corresponds to the increase in the overall number of shelter beds, which increased from 310 in 2020 to 442 in 2022. The increase in the number of beds, and people accessing those beds is the result of the numerous Project Roomkey (PRK) sites opening in the bi-county region in 2020 with COVID-19 relief fund dollars.

The City of Visalia saw the largest change in PIT numbers (540 individuals counted in 2020 vs. 469 in 2022). The City of Porterville saw a minimal decrease of 1 person (213 individuals in 2020 vs. 212 individuals in 2022). Both the Cities of Hanford and Tulare saw small increases in their PIT counts (Hanford: 254 in 2020 vs. 260 in 2022; Tulare: 203 in 2020 vs. 212 in 2022).

The Alliance feels that all efforts were made to uniformly support each community to conduct the PIT count as accurately as possible.

Hello, my name is _____ and I'm a volunteer for the Kings Tulare Homeless Alliance. We are conducting a survey to count homeless people to provide better programs and services to them. Your participation is voluntary and your responses to questions will not be shared with anyone outside of our team. I need to read each question all the way through. Can I have about 10 minutes of your time?

1. Where did you/Person [2-4] sleep on Sunday night? [DO NOT READ CATEGORIES. SELECT ONLY ONE CATEGORY.]

- | | | | |
|--|---|---|--|
