• Stainless Steel Hardware
• Optional Foot Control Motor Mount / Tall Handrail & Canopy can be added at your request.

The 615 Aluma Sport is all aluminum, including the floor. This craft has four 12 inch floats which give it an increased carrying capacity and unmatched stability. If you are in the market for the ultimate in stability and unmatched quality, this will be the boat for you. We have options including canopy tops, seating, foot control motor mount, multiple handrail configurations and more.

The all new design shows changes made to front cones of the 615 Aluma Sport. With this change you will have 100 thousand wall thickness on the cones along with welded on water deflectors. While the rear of the craft will feature a new style dish welded on the end of the pontoon with a bracket welded on to mount your electronic devices to as shown in the picture. This boat is also equipped with the optional 34” rear handrails. Normally the handrails are 20” all the way around. Shoreland’r galvanized trailers have been designed to fit Hotwoods full line of pontoon boats. Call for the best deal today 1-877-407-8645.

Also available in Covert Green!

6 & 9.9 hp Yamaha 4 stroke engines now available.

electronic device mount standard on 612 & 615 models.
Adapt to any Hotwoods Pontoon

**Pontoon Boat Accessories**

HOTWOODS outside battery shelf is available for all Aluma Sport models and can be mounted on the rear or the front. They can be purchased as singles or pairs.

The HOTWOODS folding ladder can be installed at any location on any model as long as it doesn’t interfere with motor operation. Folds in half for loading and transport. All aluminum construction, and can be removed if desired.

Ask about our removable pedestal seats, as well as removable tables.

Flip-flop benches offer 2-directional seating, with storage underneath.

---

**Boat Canopy**

- Colors: Sharkskin Blue, Burgundy or Tan.
- Folds down to the rear of the boat.
- Comes with a boot to hold in place when in the down position.

**Foot Control Motor Mount**

This mount is designed to mount your foot control electric trolling motor to the bow of the boat.

We carry and recommend Minn-Kota trolling motors.

**Cup Holders**

- Attaches to pontoon side rails. Securely holds hot or cold 12 oz. drinks.

---

**Hotwoods Folding Ladder**

- Covers entire floor section of boat
- Comes with two snap-in-place poles to prevent sagging or moisture
- All weather vinyl
- Available in Blue or Green

---

**Cup Holders**

- Attaches to pontoon side rails. Securely holds hot or cold 12 oz. drinks.

---

**Rod Holders**

- Holds a Bait Caster reel in a cushioned cradle. Includes hardware.

**Attention Hunters!**

**Camo Duck Blind**

Enjoy Hunting from your Fish-n-Sport Pontoon this fall!

Attach our Camo Duck Blind Kit to your Scout 510 for the ultimate in fall hunting! The camo duck blind kit is designed with tear open windows along with a spring loaded release allowing the hunters to have a completely open top. The blind folds down into a position that makes road travel a snap. Installs or uninstalls within minutes. This blind kit will also fit the 12’ Lil’ Sport and the 15’ Fish-N-Sport. Blind can be used alone, without boat.

See more of our Camo Duck Blind kit and other popular pontoon boats at: www.hotwoods.com

**Keep that water ice-free!**

**Ice Eliminator**

Tired of bringing your dock in every winter? The Ice Eater will solve your problems. Our Ice Eliminator will thaw the ice in 24 to 36 hours.

Perfect for water fowl enthusiasts or hunters! Extend your season by keeping your water open.

Ice Eater may be hung from a pier or boat. Two to three feet is the average operating depth.

**Yeti coolers are built to take the rugged abuse that comes with the way we work and play. Unlike ordinary coolers, which are essentially disposable, YETI coolers are made to last!**

**NEW COLOR!**

**YETI Rambler Bottles**

**18, 36 & 64 oz.**

**YETI Rambler Lowball**

**YETI Colster**
Walk-n-Dock System

Attaches to any Fish-n-Sport boat - old or new!
The walkway ramp is 36” wide. System has 4 points of tie off with heavy duty loop rings - 2 on the bank end for stakes to go through and 2 on the float end to tie from or drive stakes to lake floor.

Hand rails are 1 1/2” industry standard with a height of 36” tall. Assembling or disassembling your Walk N Dock can be done easily as all parts are bolted and designed to be very consumer friendly.

Need a walkway only for your existing dock? We can help!

The skid proof covering on our ramp assures your safety when entering or exiting your boat.

Our Walk-N-Dock system is extremely stable and durable.

The easy to handle fold-up gate/ramp can be attached with little effort.

In seconds your ramp is pinned in the gate position and you are ready to go boating.

Custom-built Walkways

We can custom build a walkway to your specifications. Call 308-381-6275 or 877-407-8645 for a quote.

Need a dock part of the time? and a boat part of the time? This system can easily turn your boat into a dock.

We make replacement all aluminum walkways for any dock or walkway request. Standard lengths are 8’, 12’, & 16’. Custom lengths can be made as well as custom attachments to dock and shorelines.

See our full line of products at www.hotwoods.com

Call Today: 308-381-6275  Toll Free 877-407-8645
Dock walkways are all aluminum, maintenance free and are sure to provide lifelong enjoyment. The entrance shown at the left is from the end of the dock. Walkway was custom designed to mount on a cement retaining wall. Dock anchoring methods shown are just suggestions. It is up to you to determine which method suits your needs.

Unlike the wooden docks that require yearly maintenance, this is a life-long system. Hotwood docks are all aluminum with stainless steel hardware. Docks are designed to fluctuate in variant water levels. Dock floats carry a 12-year warranty.
High Tensile Reel for Pro-Tatch Winders

This Pro-Tatch hydraulic wire winder is shown with the high tensile reel. Our winders have also been used to roll cable & hose in other applications. This winder comes standard with a hand spun all steel split reel designed to roll and unroll high tensile wire. The reel splits to load and unload the wire. The center of the spool is 19½" in diameter to fit new rolls of wire for unrolling. The reel is designed to fit on any hydraulic winder we manufacture. This high tensile reel kit is a must for anyone that has high tensile wire to roll or unroll. The guide arm allows the operator to stand to the side of the unit and safely guide the wire onto the reel.

The high tensile split reel features 4 wire holes around the rim. Insert the ends of your tie wire into the holes and shape it to the angle of the cone. When full, pull out and tie across top of spool.

The “Hired Hand” Tool

“This’s like a third hand!”

The Hotwoods Hired Hand was made out of necessity. Harmonically balanced to hold parts while you are welding, painting, soldering, gluing etc. Made in the U.S.A. from solid steel. Some call it their 3rd hand, it’s like having an extra person to hold it for you!
Roll multiple strands of barbed or smooth wire with our all new 3 Point Magnum Series Wire Winder. This winder can handle up to four strands at once! Excellent for those big cleanup jobs!

- Designed for smooth or barbed wire
- Category 1, 2, or 3, 3-point mounts (special orders upon request)
- Removable reel that splits to unload wire
- Holds 1/2 mile barbed or 1 mile of smooth wire
- Replaceable moly-impregnated polyethylene bushings on shaft to prevent wear.
- Hydraulic design allows you to start slow and pick up speed or slow down. No more jerking and breaking wire.
- Winders are simple to use.
- When the reel is full, tie the roll with wires at the 3 D-ring positions. Then split the reel and take the tied roll of wire off for storage.

This reel is designed for 3 tie wires to assure no spreading of the wire when taken off the cone. Place these wires on the reel prior to start up. These are the strongest 3pt. wire winders on the market today. The ball valve is installed for your safety. Always regulate speed of this unit from the hydraulics on tractor. Always plug valve hose into power side of hydraulics.

Universal Hydraulic Winder
This unit can be used in many applications. We see it most commonly used on skid steers, loader buckets, or bale mover pickups. You can mount it anywhere you have hydraulics.

- Dimensions: 16” x 16” x 1/4” mounting plate
- 1/2” mounting holes in corners for mounting
- Unit comes complete with reel, hoses, valve, shaft, lovejoy couplers, and motor.
- This unit functions as our 3-Point Model. The only difference is the mount.

Magnum Winder
Roll multiple strands of barbed or smooth wire with our all new 3 Point Magnum Series Wire Winder. This winder can handle up to four strands at once! Excellent for those big cleanup jobs!

Bale Bed Wire Winder
This unit mounts on the arm of the hydraulic bale beds, used on many farms and ranches. The one shown here is one of a few different mounts we can manufacture to make this unit work on your bale bed arm. Just give us your custom measurements and we’ll build it to fit.
Pro-Tatch Gas Powered Wire Winders

- All Steel Construction
- 5.5 Hp. Honda Pull-start Gas Powered Reliable Engine
- Includes Safety Shields
- Can be set in the back of the pickup or flatbed as well as run on the ground.
- Guide Arm comes standard!
- Your Satisfaction 100% Guaranteed!

The handle on the manual guide can be moved from right to left, depending on what side you are working the machine from. All steel construction to last for many years. As always we stand behind our products 100%.

Tie-Offs

As shown in each rear corner of the frame, we designed our new gas unit with tie-off loops that can be used to secure it when you are rolling wire. In most situations there are always tie-off points that can be used to keep your winder from moving while in operation. There is also a welded loop in the center of the winder to be used as a lift point when

Roller sleeves that will keep any type of wire rolling.

Manufactured of all steel.

Comfort hand grip included.

Will fit any 3-point or universal winder new or old.

Clutch can be operated from either side of the unit as seen here. Always keep one hand on the clutch during operation.

NEW mini spool, 4” center and 8” center solid spools can be added to any Pro-Tatch wire winder. (8” for high tensile wire)

Optional Unroller Arm, for unrolling rolls of NEW wire

Shipping charges will apply to all gas powered wire winders.

Wire Guide Arm

- Can be adapted to all models.
- Roller sleeves that will keep any type of wire rolling.
- Manufactured of all steel.
- Comfort hand grip included.
- Will fit any 3-point or universal winder new or old.

Totally Maintenance Free!
On behalf of everyone here at Hotwood’s, I would like to thank each and every customer who has helped make our company’s dreams a reality. We all know how hard it is to build a great relationship with customers that lasts for years. Our goal is to reach out not only to new customers, but also to take care of our current and past customers as though they just walked through our door for the first time. Since the early days of Hotwood’s, we understand how important it is to create those hard to find working relationships with the customer that result in some great friendships and terrific business deals. When you do business with us, you become a friend and a wonderful asset to all of us here within the company. Our motto has always been “Never sell a product or service that you would not buy yourself”.

As a college student in 1986, I wanted to start my own business, and I knew I would need to find customers all over the country to be successful. I’ve always thought no matter what is going on in one section of the country that might damper business, there will always be areas outside of that region that are doing great. With that thought process I knew what I wanted. I wanted to build a business that would reach out to customers all over the nation. I figured out early on that you had to go that extra mile to gain someone’s confidence over the phone, you had to perform with everything promised to the customer.

I pride myself in the fact that as a company we do that everyday, and that has been one of most important steps to creating what Hotwood’s has become since my dreaming in a classroom at Kearney State College back in the middle 80’s. I also understand that you will only be as good as the people you surround yourself with when forming a company. I can assure you that our personnel are the same type of people you would want to surround yourself with at any time or event in your life. I will personally guarantee to you, the customer, that we live what we believe. Taking care of each customer and providing products and services that we would want for ourselves.

Always be truthful and honest and the rest is easy. “Welcome aboard”.
