Reserve Number goes to a driver in each respective group. For example, if a driver selects #55 in Group 1, he/she will retain the right to use that number in any class that is offered in Group 1. However, if that same driver races any classes in Group 2, they will also have to reserve a number for that group as well, as the reserved number applies to a specific group. If the #55 is available in that group as well, driver may reserve that number in that group also.

It is important to note that reserving a number is not mandatory. However, if a driver does not reserve a number for the year, and the current number on their kart is already reserved at a national event by another competitor, then he/she will be assigned a # at the respective event

**Competitors have until Nov. 18 to reserve the same number(s) you had in 2017**
