

**Oregon- Idaho HIDTA
Naloxone Live Saving Initiative Fund**

Law Enforcement Department Application Request

Law enforcement officers are often first on the scene at opioid overdoses. As of July 12, 2015, law enforcement departments in 28 states carry naloxone to quickly respond to opioid overdoses. Oregon-Idaho High Intensity Drug Trafficking Areas (HIDTA) has received funding to support deployment of naloxone kits with law enforcement agencies in Oregon. These funds will be used to reimburse law enforcement agencies for the purchase of naloxone kits to treat and reduce the injury and fatality from opiate overdoses.

To access these funds, complete the application on page 3 and forward to the Director of the Oregon- Idaho HIDTA, Chris Gibson (chris.r.gibson@state.or.us). The Oregon- Idaho HIDTA program Executive Board Finance Subcommittee will review all funding requests and determine the appropriate amount to be granted.

Guidelines

Purpose

To establish an agreement between Oregon-Idaho HIDTA and law enforcement agencies for the purchase and deployment of naloxone in HIDTA designated communities.

Fund Limitations

Funds awarded will be on a one time, reimbursement basis. These funds **may only** be used for the purchase of naloxone kits. Project outcomes will be provided, upon request, to the Project Manager of the Oregon- Idaho HIDTA program.

Naloxone Use Policy

Applying law enforcement agencies shall establish and include with this application, a policy for naloxone use and resupply.

This policy shall be consistent with applicable state laws and outline how naloxone will be used. The policy should include: 1) the primary locations of the naloxone kits (e.g., Desk Sergeant / Booking area, one in each patrol car & K- 9 Units, Drug Control Unit, Law Enforcement Department Commander Office, etc.), 2) a maintenance and plan (e.g., process for inspection of kits), 3) resupply plan (e.g., reorder process), 4) an officer universal precaution directive; 5) pre and post naloxone application victim/patient assessment guidelines, 6) a medical transportation plan, and 7) a naloxone use reporting plan.

Training and Tracking Plan

Applying law enforcement agencies shall establish and include with this application an agency naloxone training and reporting plan.

The training plan should cover and provide for documentation of appropriate training on the signs of overdose, the proper administration of naloxone to overdose victims/patients and post naloxone aftercare to overdose victims/patients.

The reporting plan shall establish a system to document each naloxone administration and the results of each administration. The reporting system should document: 1) the documentation of the date, time and location of

the naloxone administration, 2) the gender, age and race of the overdose victim/patient, 3) the drug that caused the overdose, if known, 4) the number of doses used on the overdose victim/patient and 5) whether or not the overdose victim/patient survived. The reporting plan should include a data sharing provision that allows for the information to be shared with the Oregon-Idaho HIDTA for the purpose of program analysis. (A sample report form may be adopted and used by applying law enforcement agencies is included with the application.)

Medical Authorization Plan

Applying law enforcement agencies shall establish and include with this application an agency Medical Authorization Plan to purchase naloxone.

Naloxone is a prescription medication and authorization is required to allow possession and administration of the drug by first responders. To obtain naloxone, the law enforcement agency will need to collaborate with physicians from the state or local departments of health, hospitals, or community organizations and sign an agreement to formalize this collaboration. In the case of large departments, the agency's medical director or other licensed staff prescribers may provide medical oversight for the naloxone program.

Ordering Naloxone

To receive information about ordering naloxone, please contact Chris Gibson at chris.r.gibson@state.or.us.

Application:

Please fill out the information below or create a memorandum outlining how the agency will meet the application requirements:

Address: _____

Telephone: _____ Fax: _____

Request Date: _____ Amount Requested: _____

Naloxone Use Policy

Describe or Attach:

Training Plan (if different than outlined in guidelines)

Describe or Attach:

Medical Authorization Plan

Describe or Attach:

Please attach any supplemental materials or supporting documentation with this application. Use as much space as needed to complete each section.

**Oregon-Idaho HIDTA Naloxone Live Saving Initiative
Naloxone Use Report**

Officer Name:

Report Date:

Agency:

Phone Number:

1. When did the overdose occur? Date:

Approximate Time:

2. Where did the overdose occur?

Address:

City, State & Zip:

residence

business/commercial property

street

hotel/motel

other

3. Overdose victim/patient gender?

male

female

4. Overdose victim/patient race? (Check all that apply.)

Caucasian/white

African American/black

Asian

Hispanic/Latino

American Indian

Other

5. Overdose victim/patient age:

6. What were the indicators of overdose? (Check all that apply.)

Person looked blue

Person wouldn't wake up

Person lacked or had irregular vital signs – body temperature, respiration, pulse,

Person did not respond to sternal rub or painful stimuli

Other:

7. What drugs were involved in the overdose? (Present at the scene or suspected. Check all that apply)

heroin

fentanyl

prescription opioid drug type:

other substance:

8. How many vials/does of naloxone were administered?

1 2 more than 2

9. Did the administration of naloxone result in a reversal of the overdose victim's/patient's overdose symptoms?

yes no

10. If the answer to #9 is yes, approximately how much time elapsed between the final naloxone administration and reversal of the symptoms? Check one answer:

less than 1 minute

1-2 minutes

2-3 minutes

more than 3 minutes

11. Do you experience any problems carrying your naloxone kit? yes no

If yes, please specify:
