WELCOME TO LILY DALE

WELCOME TO LILY DALE

We welcome you to Lily Dale Assembly, the World's Largest Center for the Science, Philosophy, and Religion of Spiritualism, now celebrating its 142nd year. Each day of the season offers a series of events and experiences to bring information, enlightenment, hope, and peace to those who open their hearts to receive.

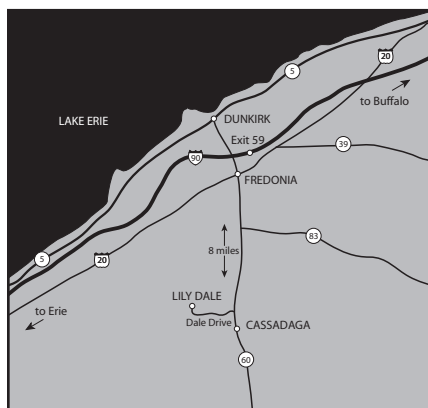

There are daily lectures on the wonders of mediumistic phenomena and the basic truths of God and Man, which Spiritualists adopt as their standard for living.

Demonstrations of clairvoyance are given at services held every day for the visitors by mediums devoted to their service. The Healing Temple is available for meditation on the renewing and uplifting of spiritual and physical energies.

Classes on a broad range of subjects related to the development of Man's potential as a spiritual being are offered throughout the season. Thought Exchange evenings are designed to give free exchange of information as well as to answer the many questions of the seeker.

We are dedicated to the service of God, Spirit, and Mankind. This, to the members of the Lily Dale Assembly, is the foundation upon which all else is built. We open our community to you that you may experience that which is for your highest and best. We encourage you to participate in the activities and to open your minds and your hearts to receive.

It is our hope that you leave us with peace in your heart and a deeper awareness of your divinity.

There is but One Power, God, the Good, Omnipotent

LILY DALE ASSEMBLY HISTORY

The History of Lily Dale is one of courage, stamina, and dedication. It all began in the year 1844 – preceding the Hydesville manifestations by the Fox Sisters. In the village of Laona, William Johnson invited Dr. Moran a mesmerist from Vermont, to lecture before a group of interested people. Mr. Johnson the son of a minister was the father of Marion Skidmore who became a great leader for Spiritualism at Lily Dale. At that time Jeremiah Carter, physically enfeebled, had sought to be treated by Dr. Moran. Unfortunately Dr. Moran had to leave before such could be applied. Mr. Johnson suggested that they try the experiments, demonstrated by the Vermont doctor. The results were startling. Mr. Carter became entranced. An entity said to be a Dr. Hedges spoke to the people present – giving messages from Spirit and demonstrating the laying on of hands.

The advent of the Hydesville manifestations strengthened the purpose of the group and they termed themselves Spiritualists, Liberals, and Free Thinkers. The group met regularly to discuss their beliefs and practice their healing and mediumship. Many great speakers and mediums had their early beginnings in Laona. In 1855 the religious society of Free Thinkers was formed in Laona, NY.

In 1873 Willard Alden who owned a farm and stagecoach stop along the east banks of the Cassadaga Lakes had a visit from Jeremiah Carter who insisted that spirit voices kept continuously urging him to go to Alden's farm and start a camp meeting. This was agreed upon with Mr. Alden and the group met there for summer picnics and camp meeting. This area is now known as The Leolyn Hotel and woods. After Mr. Alden's transition, his heirs became dissatisfied with financial arrangements, so the spiritualists in 1879 decided to purchase land and move their location. Twenty acres of land was purchased adjacent to the Alden farm from John Fisher at the price of \$1,845.00. Mrs. Amelia Colby was asked to name the Association. Her spirit guide gave her the name of Cassadaga Lake Free Association. In 1903 the name was changed to The City of Light and in 1906, The Lily Dale Assembly: named for the abundance of lilies on the lake.

Men and women worked tirelessly side-by-side, felling trees, clearing brush, and

making winding paths through the forest. The grounds were surveyed for lots. No lot was to be sold outright; lots were leased for 99 years or rented for the season. The dedication service was held at Lily Dale under a cradle canopy of boughs known as The Bough House, fashioned from entwining branches and flowers. Rough-hewn logs were used for benches. The first speaker at Lily Dale was Elizabeth Lowe Watson. She was a dynamic speaker, a liberal and suffragette.

Financial problems were experienced from the early beginning of the camp, this acted strangely enough, not as a deterrent, but as a challenge to go forward and work harder towards the anticipated goal. The first order of business of the camp was the discussion of building a permanent Auditorium. This was accomplished in 1883, and later remodeled in 1901. The seating capacity was twelve hundred. There has been many times during Lily Dale's history that people stood three deep outside the auditorium in order to hear the lecture.

Preceding the auditorium, in 1881 a Lyceum was formed by Thomas and Tillie Lees with the children meeting in a tent. They felt that training of the young was important. In 1928 the Andrew Jackson Davis building for the Lyceum was built and gifted to Lily Dale by a group of prominent spiritualists. In 1894 the Alden House was purchased by Mrs. Abby Louise Pettengill and renamed The Leolyn after her granddaughter. The Assembly later purchased The Leolyn from Mrs. Pettengill.

A hotel was built in 1880. It originally was the horse barn. It is known as a "hung suspension building". When additional floors were needed each floor was raised and the new additions built underneath. It was known as the Grand Hotel and renamed the Maplewood Hotel in 1903.

Today the Maplewood Hotel stands serenely, her old time charm still intact, overlooking the lake enticing the occupants to relax on its wide porch, and watch the ducks and swans glide by. Many philosophical subjects have been debated and aired on the Maplewood porch. Bit by bit these sturdy pioneers plodded forward – roads were built, sewers installed, lights became a reality. The first Library was held in a tent in the park in 1886. Then in 1888 was moved to the second floor of what is now named Assembly Hall. Today it stands proudly as

the Marion Skidmore Library on Cottage Row housing thousands of the finest books on Spiritualism.

The Assembly Hall, famous for its thought exchange and class work came into being in 1888; the school building was erected in 1890 and when all schools were consolidated in 1937 it was used for the Community Club. The school building is now the museum and houses the largest collection of spiritualist memorabilia in America. The Octagon Building was also built in 1890 and was reserved for classes, arts, and the teaching of proper dancing. It housed the Junior League for years then became the Mediums League Building. The Healing Temple was built and financed by Louis Vosberg at the direction of T. J. Kelly's guide. This National Missionary was one of the most outstanding mediums that served the Lily Dale platform. Incidentally, the famous actress Mae West, a friend of Jack Kelly visited Lily Dale at his invitation.

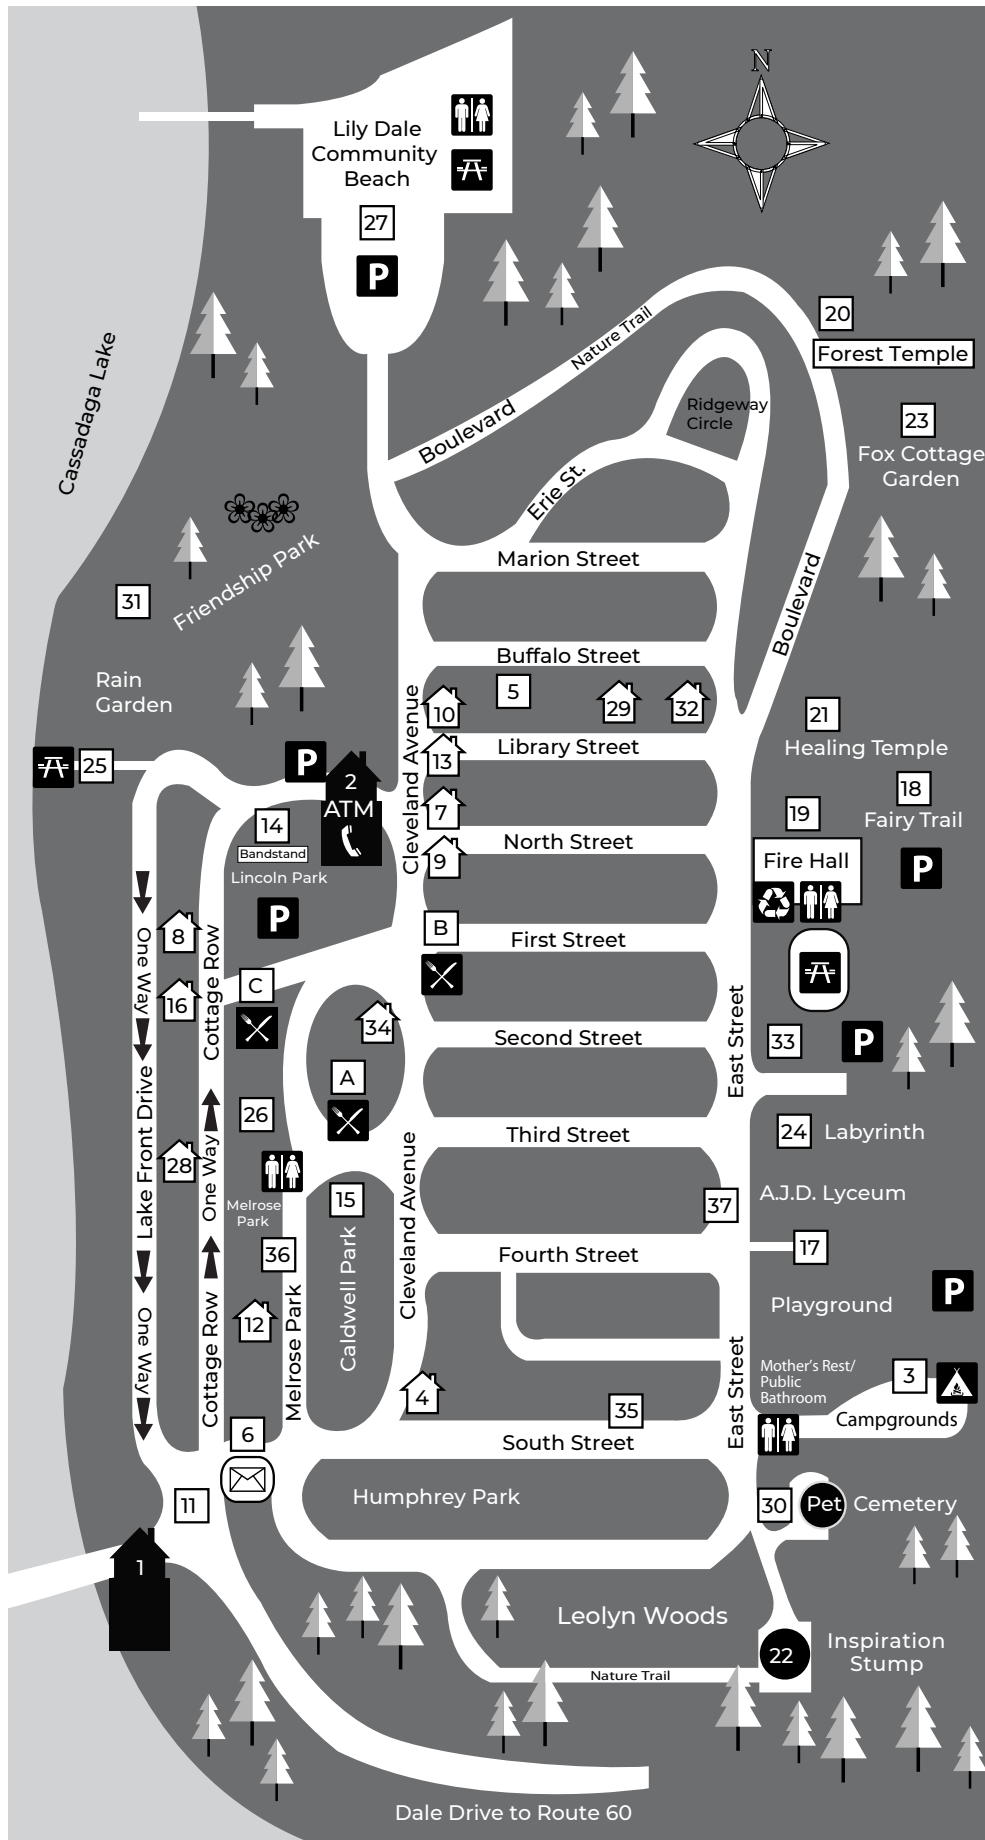

The original Fox Cottage was moved from Hydesville, New York, a gift from Benjamin Bartlett of Cambridge Springs, Pennsylvania and placed at Lily Dale in 1915. Tragically the cottage burned to the ground on the morning of September 1955. Fortunately the Peddler's trunk and family Bible were saved.

In 1898 Lily Dale had its own newspaper, The Sunflower. The editor was William Bach, who with his wife Evielena erected the Sunflower Pagoda. The United States Government in 1888 established the Lily Dale Post Office ensuring the inhabitants not only the convenience of its service but recognizing Lily Dale on the map.

From its lowly beginning of twenty acres, Lily Dale now owns more than one hundred sixty acres. Lily Dale has a splendid volunteer Fire Department and E.M.T. group. These men and women give freely of their time and efforts to protect the camp.

Beyond a doubt Lily Dale has lived up to that early promise. The roots of Lily Dale stand firmly in the past upholding spiritualist philosophies and always keeping its eye on the future. Lily Dale is a place for individuals to discover themselves and join with others who are on the same path. Lily Dale has comforted the bereaved, demonstrated the truth of immortality, and shown others a way of life known as the Religion of Spiritualism.

Lakeside Assembly Hall

Since the 1880s, the Assembly Hall with its gallery of portraits of many of the historic leaders in the Spiritualist Movement, many of whom resided in Lily Dale, has been a hub of activity in the community. The home of the Church of the Living Spirit, it is the center for workshop activity during the summer season.

Lily Dale's Fairy Village

Behind Fire Hall

The Fairies decided the Fairy Trail was becoming overpopulated and they needed to establish a larger community. They selected a beautiful, more level, and larger piece of land in the woods behind the Healing Temple.

A historic one-room schoolhouse built in 1890 houses the Lily Dale Museum. The museum is located at the corner of Library and East Street, across from the Healing Temple.

A vintage pictorial display is on view that includes pioneer landmarks, early lectures, and mediums. The Fox family display includes the peddlers box and Fox family memorabilia and artifacts. Susan B. Anthony's woman suffrage display has been noted as one of the best in the country. Precipitated Spirit Paintings and Slates by the Bang Sisters and Campbell Brothers adorn the walls to add to this Victorian Building's atmosphere. Come to experience a "walk back in time" by viewing memorabilia of an earlier era. Our Museum's extensive collection of Spiritualist newspapers, magazines, and pamphlets has been acclaimed as the foremost research source of early Spiritualism and its pioneers.

Any donations received will help expand and maintain our Museum and are tax deductible. Checks can be made out to the Lily Dale Assembly Museum.

The Fox Memorial Garden

It was in the Fox Family Cottage in Hydesville, New York where the sisters Kate & Maggie Fox first made contact with the spirit of Charles B. Rosna on March 31, 1848. That day was considered the beginning of modern American Spiritualism.

The Fox Cottage was transported in sections to Lily Dale and reassembled there in 1915. For many years Spiritualists from around the world visited the Cottage to honor Spiritualism and the Fox Sisters. Sadly the Cottage burned down in September of 1955. All the remains from the fire were buried within the basement and covered over with soil. Today we maintain this garden in memory of those humble beginnings. And we hope that you, too, will use this peaceful and revered place in meditation to connect with your spiritual history and open to your higher thoughts and your own spirit within.

The Lily Dale Labyrinth

The Lily Dale Labyrinth was established and planted by Fellowships of the Spirit in the fall of 1991 as a gift to the Lily Dale Assembly's members and guests. Labyrinths can be found all over the world and have been used for many different purposes, including ceremonial and ritual, throughout the ages.

The intention of the Lily Dale Labyrinth is to help lead spiritual seekers on an inward journey. We invite you to take this journey for yourself, too. As you walk slowly and purposefully around the Labyrinth, allow yourself to ask specific questions and listen within. You will be guided to the answers you seek about the situation at hand – and, indeed, about life's most important questions.

HEALING TEMPLE

Dedicated to the principles of spiritual healing, the Healing Temple was opened in 1955. It has remained a place of peace and solitude for all those who come to renew their energies through healing or quiet meditation and prayer.

Due to COVID, Healing Temple services are subject to change. If the Healing Services are held online only, the Healing Temple will be open from 11am - 5pm for silent meditation and prayer only.

HOURS: Mon-Sat: 10:30-11:30am, Sun: 12:00-1:00pm,
Daily: 7:00-8:00pm

DAILY & WEEKLY ACTIVITIES

SUGGESTIONS FOR A HEALING

This is a guide for receiving a spiritual healing. It will help you open your heart and mind to receive beautiful, channeled energy from any one of the healers.

- Please be respectful by remaining quiet prior to and during service.
- When you receive a healing, relax and enjoy the experience. Your awareness can be greater if you relax, place your feet on the floor, hands in your lap, with palms turned upward. Breathe in and out slowly several deep breaths and gently close your eyes. RELAX.
- The true value of spiritual healing is not always measured immediately, although you may verify and recognize immediate change, healing energies will remain with you indefinitely. ALLOW.
- There are many healers who serve the Temple. They each have their own unique gifts of healing. If you have any questions, they will be happy to assist you after the service. EXPECT GOOD.
- Before receiving, ask God's healing source to remove all obstacles from your path so you may receive. ASK.
- One healing per service is appropriate. BE PATIENT.
- Spiritual healing is not a substitute for medical treatment.
- You are not expected to discuss your condition or problem with your healer, however, general information could be helpful.
- Remember to give thanks for the healing energy brought to you through your healer. GRATITUDE. "Laying On Of Hands" is an old art of healing. Many cultures all over the world use this helpful healing technique to direct energy from the God source.

INSPIRATION STUMP

Inspiration Stump is a spiritual retreat found at the end of the calm and quiet trail of the Leolyn Woods. It is not unusual to become more aware of the spiritual energies while in an open and receptive state at the Stump. You are invited to participate in the services held twice a day in the grove at no charge. Demonstrations of mediumship are presented by the mediums giving short messages to those in the audience. These services have been held since 1898. As well as possibly receiving a message of meaning at Inspiration Stump, you may well renew your own Spiritual energies. Spiritual awareness is available to all. Please show consideration for the mediums who are working and for those who are receiving messages by refraining from unnecessary noise or movement that disrupts the flow of energy.

(In the event of inclement weather, a bell will be rung to indicate location of service.)

AUDITORIUM SERVICE

The Auditorium is a historic part of Lily Dale and has been the scene of many remarkable events. Built in 1883, it is the center of activities during the summer season. Sunday morning services are held there at 10:30am each week by our two local churches: The Lily Dale Spiritualist Church and The Church of the Living Spirit. The public is welcome at these services and all other activities advertised on the grounds.

Each afternoon, seven days a week, there is a service in the Auditorium featuring a speaker and a clairvoyant from 2:30-3:30pm.

See pages 14-15 for Speakers, Mediums, and Chairpeople.

FOREST TEMPLE

The Forest Temple, located on East Street, is an area of tranquility. It is here that messages from Spirit are delivered through mediums that are registered on the grounds as well as those who are visiting or are students. The Temple has been operating since 1894.

Like Inspiration Stump, Forest Temple is an area of spiritual, emotional, and mental upliftment. Services are held at the Forest Temple daily at 4:00pm. There are no Forest Temple Services on Sundays.

(In the event of inclement weather, this service will move indoors. Bell will be rung to indicate location.)

*Ghost Walks with Ron Skowronski
and Ray Taft*
9:00pm, registration begins at 8:00pm at
the Auditorium, \$20

Some people define "ghost" and "spirit" differently. Find out as our night time walking tour of Lily Dale begins at the auditorium. We will begin with a brief overview of Spiritualism and the unseen realms. A brief history of how Lily Dale got started, and how it rapidly grew to become the world's largest center for the religion of Spiritualism gets us started. If rainy, be sure to bring an umbrella, it won't "dampen our spirits". If it is pouring out, our tour will end in Assembly Hall, where Spirits have helped seekers almost as many years as at the "Stump".

The tour requires about an hour of walking and some stair climbing. Those with any handicapped restrictions are welcome to attend as best they can. We encourage you to have your own transportation. All of your Spirit Walk hosts are familiar with Lily Dale and its "haunts". Each has a special love for "the Dale" and its history. No two tours are alike. While there is never a guarantee that you'll see a ghost or sense a Spirit, you're sure to gain a better understanding of them and of Lily Dale. These are not GHOST HUNTS! The purpose is SPIRIT AWARENESS.

Saturday

Morning Yoga with Kelsey Gopsill

7:30am-8:30am – Auditorium, \$10.00

It all started in warrior 2. I was on the mat (in my third yoga class ever) struggling to keep my arms up ANY longer in warrior 2, when a sweet gut punch of enlightenment fell upon me. Time stopped, the worries stopped, and my journey began. In that moment I felt such an immense sense of release. Release of all the battles I was fighting, the to-do lists for the day, the judgements, and complete release from my ego. I experienced a connection to a deeper part of myself, and it was in that moment that I believe was truly the first time I met the purest part of my soul, and my purpose. The music the teacher was playing infiltrated my entire body, and it was in that moment that I realized that I was supposed to guide others to this exact feeling. Two days later I signed up for teacher training. I graduated my first training in 2016, since then I have made it my mission to create and guide hundreds of classes on a sweaty 60 minute journey of movement, love, creativity, and lasting transformation. I look forward to guiding each and every student that attends my class. Flow with you soon.

Saturday Mornings with Ron Nagy

10:00am -10:30am Free

Letter from the President

Lily Dale is many things to many people, but for those that live here it is home. We welcome you to these sacred grounds and only ask that you be respectful and kind to all you encounter.

Our community is a religious one that practices the Science, Philosophy, and Religion of Spiritualism. It is where two worlds meet. The world is filled with both light and dark energy, here we hope you feel the peacefulness and healing of Spirit, please share it.

Feeling safe comes in many forms, we have taken great pains to make sure you are.

In response to the hardships that many have experienced we have lowed our workshop fees this year. Many have worked to get ready for your stay and we hope you enjoy your time with us and leave more peaceful, more healed, and more grateful to the Divine.

Please help us and follow whatever precautions we ask of you while you enjoy your time with us.

BUTTERFLY RELEASE CEREMONY

12:30pm, Butterfly Habitat

A pre-payment of \$12.00

is required to secure your butterfly

The Lily Dale Environmental Committee is hosting a Butterfly Release Ceremony following the opening flag raising on Friday, June 25, 2021 at 12:30pm at the Butterfly Habitat (located opposite the Bough House Restaurant).

The life cycle of a butterfly serves as an analogy to our own existence. Butterflies are nurtured from cocoons, to caterpillars, and finally into butterflies to soar freely and widely in the sky. We will remember the souls of loved ones who came into this life in human form, and were released during the change called death, to a greater life. They are still with us, to share our love, thoughts, and our prayers.

Anyone interested in releasing a butterfly in memory of a loved one should register online at www.lilydaleassembly.org. A pre-payment of \$12.00 is required to ensure a butterfly is available for release.

Please join us for this sacred event!

HAND REFLEXOLOGY

David G. Speer

2:00pm-5:00pm, Assembly Hall & Zoom
\$50.00

Become an effective healer in one week and be healed too. I am proposing five powerful classes that work synergistically together. The first is Hand Reflexology:

Reflexology is an ancient art that applies physical pressure to the feet, hands, or ears with specific thumb, finger, and hand techniques. Reflexologists recognize a system of zones that reflect a detailed image of the entire body via the feet and hands; the practice manipulates and balances energy (Qi) via certain pathways in the body and also breaks up crystalline buildups.

2021 Workshops

Learn these simple and powerful techniques to:

- Assist the body's own healing process to resolve headaches, sinuses, neck, back, shoulder, and neuromuscular discomforts.
- Improve relaxation and vitality.
- Improve and support the circulatory, digestive, and respiratory systems.
- Improve the physiology of psychology and so produce better decision, moods, and the creative thought-process.

Reflexology has no toxic side effects, is all natural and uses the body's own healing renewable energy – you might consider it a green medicine, an enlightened alternative for the twenty-first century!

David G. Speer, Ph.D. is a healing arts practitioner, educator, and ordained minister, who has studied and practiced holistic healing – spirit, thoughts, emotions, and body – for more than thirty years. His work brings together the best of current scientific knowledge and the world's religions.

He is a certified healer through Tom Cratsley, healer and teacher of restructuring; he has served as a well-respected intuitive counselor and speaker, and has been an instructor for the Community College of Allegheny County, the Pittsburgh School of Massage, and the Lily Dale Assembly in New York. He holds a Ph.D. in Naturopathy, a B.S. in Mathematics, is certified in Electro-Psychometrics, and is an advanced practitioner in Phoenix Vibrational Healing; he also is a master Reflexologist, a master practitioner in Reiki, and a spiritual minister who has studied with masters in Ortho-Bionomy, Neuro-Linguistic Programming, and Vibrational Healing.

David first became interested in holistic healing in 1981 when he discovered that, once stress is removed, the spirit-mind-body can respond naturally to bring about holistic healing for the individual. His ongoing endeavor is to open a new world of spiritual healing for all who work and study with him – to know the gift of being human and to embrace the possibilities.

Due to COVID-19 restrictions, some events and locations may change. Please check lilydaleassembly.org for information.

In this class you will learn a "love shower" technique to create and nurture healthy self-love, which produces unbelievable good luck and good fortune, which many have called "being in the zone" or "in the groove" and many mystics recognize as the entrance into the profound oneness with God, the Source or the Universe. GROUP HEALING
David G. Speer

2:00pm-5:00pm, Assembly Hall & Zoom
\$50.00

Become an effective healer in one week and be healed too. I am proposing five powerful classes that work synergistically together. The fourth is Group Healing:

Synergy is two or more functioning together to produce a result not independently obtainable. In the natural world, synergistic phenomena are extensive in multi-cellular organisms, as well as in the laws and principles of the physical universe. Group healing demonstrates multi-dimensional and multi-vibrational healing techniques that, like the natural world, can be magnified by unified co-operation. Spiritual-energetic teamwork will balance chakras and meridians, advance and shift personal awareness, bring greater harmony to life experiences and increase our abilities to heal ourselves and others. Experience awareness and healing on levels and dimensions that you never knew existed, and later experience these realities easily at your choosing! Negative and self-limiting blockages will be cleared and replaced with positive life-nurturing responses to empower your growth and enhance your personal relationships.

Come and experience the realities often described as:

- Your Higher Self
- The Loving Presence Through The Universe
- The Creator Of All That Is

MEDITATION BASICS
Dawn Marie

2:00pm-5:00pm, Octagon Building & Zoom
\$50.00

Does the thought of Meditation want to make you run? This class will look into the many ways meditation can be done without the "standard" way of meditation. We will cover that as well, but we will also look at your personality and astrological sign to figure out which way of meditation fits you! This is an interesting and fun class in which you will walk away with valuable insights on how to start your meditation practice – or even if you want to learn how to receive your intuitive thoughts and put them to use!

Dawn Marie has been clair-empathic and a psychic-medium since childhood. After earning her degree in Massage Therapy, she was introduced to Reiki and from there became a Reiki Master, teacher, and energy healer. She learned to open up and embrace her gifts. This led her to paranormal research and investigations. Dawn has helped hundreds of people through Spiritual Coaching, classes, workshops, readings, messages, clearings, and balancing since 2012.

Tuesday, June 29
ELECTROMAGNETIC HEALING WITH QUARTZ CRYSTALS
David G. Speer

2:00pm-5:00pm, Assembly Hall & Zoom
\$50.00

Become an effective healer in one week and be healed too. I am proposing five powerful classes that work together. The last is Electromagnetic Healing with Quartz Crystals:

Crystal healing has been recognized in many cultures throughout history, including the Hopi Native Americans of Arizona, Hawaiian islanders, the Chinese, the Japanese, and the Tibetans. The crystal can act as a receiver as much as a transmitter, interfacing with the energetic anatomy and stimulating energetic currents that have been variously called Qi (Chi), Prana, Mana, Pneuma, Vital fluid, Odic force, Orgone.

Scientifically, piezoelectricity is the ability of certain materials (notably crystals, some ceramics, and biological matter such as bone, DNA, and proteins) to generate an electric field or electric potential in response to stimulation.

Come learn how quartz crystals, renowned for their healing and piezoelectric properties, conduct energy and replace daily discomforts with healing and peace by easily pulling together and balancing the energies, auras, and chakras that work around and through us all. Learn how to choose your personal crystals by attuning yourself to their vibrations and hearing which speak to and attract you. You will learn therapeutic techniques and also how to recharge the crystals and clear the crystals of negative vibrations.

HO'OPONOPONO AND LAULIMA
 Harry Jim

9:30am-4:30pm, Assembly Hall
 \$100.00

Ho'oponopono is an ancient Hawaiian tradition that is utilized to bring balance and harmony into one's life. At its root, Ho'oponopono is an experience of forgiveness and allows us to release that which keeps us feeling stuck in negative thoughts and patterning. Join us to experience and learn the art of Ho'oponopono with the renowned local Kahuna Harry Uhane Jim.

This interactive workshop will provide you with lifelong skills to:

- Transform negative and exhausting energies into positive and healthy new vistas;
- Reclaim your innate personal power, allowing effortless navigation through life's trials and discoveries;
- Discover your capacity to radiate your true essence;
- Practice the art of "downsizing" - having what you want regardless of what others expect you to want;
- Connect with like-minded people for reciprocal mentorship opportunities.

Laulima is an opportunity to discover and love your emotional body. We will share, demonstrate, and pass along one of four techniques unveiled in the book, *Wise Secrets of Aloha*. We will learn by doing "laying of hands," an ancient Hawaiian healing practice in which everybody is enough and everyone participates. You will become initiated into Hawaiian touch medicine known as Laulima energy work. We will gather in a cluster of like-minded healers holding a common intention for one person's well-being. Come and connect with your power to heal!

Harry Uhane Jim, Kahuna, healer, and teacher, is the author of *Wise Secrets of Aloha*. Harry was born and raised on Kauai, Hawaii. He has been doing the work for many years and has been trained in the traditional apprentice style by the best known native Kahuna's of the last seven decades. His presentations carry authenticity and are known for unveiling profound ancient truths with wit and laughter. He evokes the Hawaiian experience of healing by raising your vibration.

**Friday – Sunday,
July 2-4**

**MARI – MANDALA
ASSESSMENT
RESEARCH
INSTRUMENT**

Michele Takei, Ph.D.

Fri. 7:00pm-10:00pm, Sat. & Sun. 9:30am-4:30pm, Lyceum Building & Zoom

Tuition-\$500.00

Materials and manuals-\$350.00

The cost of materials (\$350) can be given directly to the instructor at the class.

This course is far more than learning about an excellent tool. It is an informative, interesting, and deeply personal experience!

MARI is a comprehensive psychological tool based on colors and symbols. Unlike other traditional assessments, MARI accesses all four aspects of consciousness – both conscious and unconscious. Grounded in wholeness and a transpersonal, Jungian perspective, MARI is a tool that reflects the positive psychology perspective, and accesses “other than conscious contents.”

MARI is a non-verbal and non-threatening assessment that works because there is a remarkable connection between the symbols and colors that one chooses and what is going on in the person's life. MARI passes beneath the radar of consciousness to reveal the inner truth of the individual as it really is –not the ego, but the Self. Using archetypal symbols and developmental stages of life, it literally reveals an accurate visual ‘picture’ of one’s psyche. MARI is also used as a highly effective therapeutic tool. Because the subject ‘sees’ where they are, change can occur much more quickly. The subject provides their own intuitive guidance based on their own urge toward wholeness.

While the course is of primary interest to mental health professionals, the material is relevant to other disciplines as well. VORTEX ENERGY ACTIVATION
Spider

9:30am-4:30pm, Lyceum Building
\$100.00

We are living in a cycle where our Energy Webs are rapidly changing vibration, influenced by the energy coming to this planet from the heart of heaven and the new dimension of the fifth world. It is no wonder that many of us feel stressed and overwhelmed as we attempt to integrate these new energy vibrations into our busy lives. Vortex Energy creates a multidimensional portal that anchors vibrational changes. Using hand placements to configure the electromagnetic energy of your

body, Vortex Energy creates an energy beam that polarizes and transforms both your Energy Web and physical body. Healing ourselves using Vortex Energy harmonizes all levels of our being. Regular use of Vortex Energy can reduce stress and anxiety, align a healthy energy flow in your physical body, and remove blocks towards manifesting what you desire.

This presentation is designed to share basic Vortex Energy practices for self-healing. During this hands-on presentation, participants will:

- Use an Energy Band to polarize your Energy Web;
- Clear disharmonious energy cords from your Fine Lines;
- Activate Fifth Dimensional vibrations within your Energy Centers;
- Use color and sound to strengthen your personal vibration;
- Anchor your Energy Web with the Energy Web of the planet.

This is an intensive workshop. It is not necessary to have prior experience with Vortex Energy. Please dress comfortably, bring a blanket if you wish to lie down for the meditation, and allow some unstructured time after this session for energy integration.

Spider is a ceremony leader (Beike) with the Caney Indian spiritual circle, medicine wheel teacher, herbalist, and founder of Vortex Energy Bodywork. She is the author of *Vortex Energy*, *Grandmother Spider and the Web of Life*, *Songs of Bleeding*, *All Our Relations Medicine Wheel for Children*, and *Grandmothers of the Four Winds*. Spider does Taino glyph and medicine wheel readings, vortex energy sessions, and full moon ceremonies at her home in Fredonia.

Throughout modern history psychic work and mediumship were often referred to as clairvoyance, resulting in a misunderstanding because not all psychics or mediums have natural visual ability. However, clairvoyance can be developed and trained. This hands-on, interactive workshop focuses on all the ways to use clairvoyance, including: basic psychic imagery; "traveling clairvoyance," also known as remote viewing (seeing objects or people from a distance); internal visualization; and seeing Spirit with visual mediumship. Be prepared for individual and group exercises in a fun, no fail environment.

Celeste Elliott was born and raised in northeast Ohio. She grew up around the metaphysical and Spiritualist community, and studied mediumship in traditional development circles and workshops. After graduate school, Celeste attended and was ordained through the Fellowships of the Spirit School of Spiritual Healing and Prophecy. She is a year round resident of Lily Dale and a Registered Medium on the grounds. In the off-season she travels to serve churches, teach, and demonstrate mediumship.

We are all born with a connection to our intuition. As the years go by most of us tend to rely more on logic and not as much on our feelings, our link with the Divine. In this workshop you will:

- Learn the basics of using your intuition in your life every day and how to stay in connection with your higher self in order to receive guidance for yourself and for others;
- Learn to develop "the clairs" and understand how to use these messages in your daily life;
- Learn to be connected with your intuitive higher mind because listening to our intuition is being in rapport with ourselves. Trusting those inner feelings can help with life changes and make them easier and smoother;
- Get to know yourself and who your spirit guides are, be able to trust what is for your highest good, and use your feeling side to check in and know for sure that something is right for you.

Thursday, July 22 TRACKING OUR LIVES THROUGH REFLECTIVE JOURNALING

Dr. June Leavitt

9:30am-4:30pm
Lyceum Building & Zoom
\$130.00

Unlike regular diary-keeping, we begin with writing exercises that bring our focus to a recent cycle in our lives. We note down the atmosphere of the period, the people who were important to us, the projects we did, and the sensations, images, and insights that have stayed with us. We then expand upon our reflections on the period, through writing tasks that involve imagined dialogue with people that were close to us, personification of events that happened, and the chronicling of memories. These creative techniques for digging deeper into our personal experiences, through writing, and through sharing them with other participants if we care to do so, can bring new understanding, healing, and insight. Participants are asked to bring a new, five-subject, ruled notebook to the workshop.

Dr. June Leavitt lectures in mystical literature at Ben Gurion University, works as a freelance writer, and facilitates writing workshops in Jerusalem. Her publications include *The Mystical Life of Franz Kafka*, and *Esoteric Symbols: the Tarot in Yeats, Eliot and Kafka*, as well as *Flight to Seven Swan Bay* a novel for young adults reissued as a classic for young readers. The publication of her diaries spurred her to experiment with journal writing for understanding and creative growth.

Saturday, July 24 HORSE POWER: TURNING ON YOUR SIXTH SENSE

Nancy Proulx

9:30am-12:30pm, Lyceum Building & Zoom
\$50.00

All animals speak the silent language of intuitive communication but horses specifically can help jumpstart this connection to our sixth sense. Horses are prey for many other animals. Their lives depend on them trusting their instinct and intuition. In our human world we have been trained to become addicted to reason. Our intuition has nearly been extinguished. Horses can help us transcend our five senses and connect to our inner world. It is within this realm that true communication and connection occurs.

In this workshop we will rekindle what horses know we have long forgotten: intuitive communication is our birthright. We will invite you to step into the horse world to feel, sense, and view your world at a deeper level. Experience equine inspired insights and exercises to help reintegrate the mind and body, expand awareness, and increase connection to your animals and your inner self. All levels are welcome. No horses will be on the grounds.

Nancy Proulx has always had an affinity for animals and a love of nature. She is a lifelong equestrian owning her own horse boarding and training facility for 12 years. She has an Associate Degree and is a Registered Radiologic Technologist. She has a four-year intuitive counseling degree through Holos University where she studied with Norman Shealy MD and Caroline Myss. Continuing her love of horses she studied the field of personal development with Linda Kohanov for 7 years, becoming an Eponaquest Equine Facilitated Learning Coach in 2016. Nancy has been helping to expand the healing potential of working with horses. Her Horse Wisdom programs help people explore everything from emotional and social intelligence skills to mindfulness and personal empowerment.

9:00am - Sparks of Spirit: Lightning and the Divine

Leonard George, Ph.D., Emeritus, Capilano University, Vancouver, Canada

Lightning, Spirit, and healing have been linked for centuries. According to myth, the Greek doctor Asklepios was transformed into the god of healing through a lightning strike. Lightning was viewed as a divine omen in Roman augury. Ancient mediums called theurgists traversed channels of living fire to visit higher realms. And to this day, the electrifying link persists. In this talk, Leonard George will take us from antiquity to today, citing recent accounts of electrocution triggering mediumistic talent, as in the cases of Elizabeth Krohn and Dr. Lauren Thibodeau.

10:00am - Spiritualism, Science, and the Woman Doctor: The Case of Anna Kingsford

Christine Ferguson, PhD., University of Stirling, Scotland

Feminist, Spiritualist, and one of the first British women to qualify as a medical doctor, Anna Kingsford (1846-88) is a landmark figure in the history of Spiritualism. In this presentation, Christine Ferguson will illustrate how Kingsford's career exemplifies the ways in which women sought to authorize themselves as both scientific authorities and as visionary seers at the end of the nineteenth century. This talk will demonstrate how Kingsford's scientific work and activism challenges the "empowerment through passivity" model of female mediumship and its proposal that women could only gain power by acting as empty vessels for spirit possession. On the contrary, we will see how Kingsford's defiantly self-focused form of scientific and spiritual knowledge encouraged female seekers to celebrate, rather than abandon, their own experiences and intuition. We will consider how Kingsford's remarkable work across the frontiers of Spiritualism and science can help us to rethink the histories of Victorian women's spiritual practice and medical education alike.

11:00am - Spirit - Vibration - Form: The Study of Cymatics

Architect Steve Bass, New York, NY

How could spirits incarnate into physical bodies? An answer provided by the ancient Pythagoreans and Platonists was that number and geometry could be intermediaries between Spirit and matter and may be considered 'disembodied ideals' that could manifest as waves or vibrations. Since the seventeenth century, a tradition of actualizing this relationship has existed. First called Chladni patterns, they were pursued in the mid-twentieth century by German esoteric researcher Hans Jenny who called the subject 'Cymatics'. In its most basic form, the technique involves a 'medium'—such as sand or mud—placed on a metal plate and subjected to controlled vibration. The 'medium' assumes a wide variety of shapes including those found at all scales of the physical world from atoms, to landscapes, to cells, to complex creatures such as plants and animals. Cymatics not only provides a narrative of coming into form, but supports an alternative to materialistic Darwinism. In this presentation, architect Steve Bass will illustrate these possibilities.

BREAK — 12:15PM - 2:00PM

2:00pm - Mediumship on Trial: Revisiting the Case of Henry Slade

*Efram Sera-Shriar, Research Fellow,
Science Museum Group, London, England*

In 1876, the eminent anatomist and biologist, E. Ray Lankester (1847-1929) accused the renowned American medium, Henry Slade (1835-1905) of fraud in a series of letters published in the *London Times*. According to Lankester, the blank slates Slade used to receive written communication from spirits had pre-recorded messages. After attending one of Slade's séances, Lankester registered a complaint with the police, and a trial began in October of that year. The crux of the case came down to whether or not Slade was genuinely a medium, and whether the messages appearing on his slate were produced by himself or through spirit agencies. All sorts of so-called expert witnesses weighed in, and much discussion centered on whether Slade's feats could be reproduced by natural or mechanical means. This talk will re-examine the evidence presented at Slade's 1876 trial in London. Through close analysis of the various witness testimonies, Efram Sera-Shriar will explore the complex debates surrounding psychical research during the height of Spiritualism's popularity in the Victorian era.

3:00pm - Modernist Materializations: Photographing Ectoplasm in the 20th Century

*Serena Keshavjee, University of
Winnipeg, Canada*

From 1920-1935, Dr. Thomas Glening Hamilton and his wife, Lillian, experimented with séances at their home in Winnipeg, Canada. Their sophisticated black and white photographs documenting 'ectoplasms' were exchanged around the world, gaining them some celebrity status. Hamilton described the means and methods of taking photographs of ectoplasmic materializations in an unpublished article titled "Photographing Teleplasms." This text lays out the importance of technology, biology, and modernist aesthetics to their photographic practice. Serena Keshavjee will discuss how Dr. Hamilton based his research aesthetics on the texts and photographs of European psychical researchers Juliette Bisson, Albert von Schrenk-Notzing, Gustave Geley, and Charles Richet, as well as illustrate how the Hamilton's work contributed to the style of the twentieth century spirit photography.

4:00pm - Messages from Your Future Self: An Introduction to Precognitive Dreamwork

Eric Wargo, PhD., author of Time Loops

Growing evidence suggests that we are precognitive beings. Future experiences

influence us in the present, via what Sigmund Freud called the unconscious. Our nightly dreams are the royal road to our precognitive nature. In this talk, author and dreamer Eric Wargo will discuss the science of precognition and outline the principles anybody can use to explore and work with dream precognition in their own lives—including how to identify precognitive dreams when they occur and how to interpret their symbolism.

5:00pm - The Healing Ritual of the Tarantella, Part I: Music and Movement as Medicine

*Marjorie Roth, PhD., Nazareth College,
Rochester, New York*

One of the most potent manifestations of music as medicine is the Tarantella, a combination of music and dance that hails from southern Italy. Now little more than a lively folk dance common to weddings, street festivals, and Italian "Tarantourism", the Tarantella was originally a musico-choreographic healing ritual with roots deep in Antiquity. It was believed that the bite of the tarantula was fatal if not treated with a mix of rhythm, melody, color, and movement tailored specifically to the relationship of the victim and the spider. In this talk we will explore the historical, medical, musical, and magical aspects of the Tarantella, and consider the place of recent revivals of the ritual in a modern world so much in need of holistic healing.

8:00pm-10:00pm - The Healing Ritual of the Tarantella, Part II: Dancing the Tarantella

*Marjorie Roth, PhD., Nazareth College,
Rochester, New York*

Following Marjorie Roth's illustrated presentation on the Tarantella, she invites interested attendees to experience the basic gestures of the dance's healing ritual as they are preserved in the Italian folk tradition. While the dance is best done barefoot, participants may be more comfortable wearing socks or a pair of smooth-soled shoes. Loose, comfortable clothing is best, and everyone must bring a scarf or long ribbon in some color they find particularly appealing. Ladies, a longish, full skirt will greatly enhance the spirit of your dance. People who prefer to observe rather than to dance are welcome to bring a tambourine and help to keep the beat.

WHAT IS MARI?

A creative assessment tool based on colors and symbols...

Mari is the Best Tool for Psychological Insight, Awareness and Healing

In a Mari Reading you will create a drawn mandala, then choose symbols from an array of cards and pair color with the symbols. The symbols relate to both conscious and unconscious stages of life and create an accurate picture of your life. The reading reveals your strengths and issues and provides an opportunity to resolve those issues. The drawn mandala will be reviewed for additional information. The reading will include an opportunity for answers to a personal question.

The collective unconscious is the home of the soul, wholeness and all knowledge. For thousands of generations your ancestors have made connections to symbols and colors. This knowledge is a part of you and your DNA and is accurate because as Jung said “The psyche will not tolerate self-deception.”

SPIRIT MEETINGS AND MESSAGES

Cindy Kaza

8:00pm-10:00pm
Auditorium
\$30.00

Join television medium Cindy Kaza for an exciting evening of messages from the other side! With Cindy's dynamic evidence of the afterlife and the extraordinary clarity of the insight Spirit brings, you'll be able to feel the power in the room. Cindy will share heart-filled messages with selected audience members. You will also have the opportunity to find out more about the spirit world in a lively question-and-answer period. So, don't miss this spirited event, where you can meet the world beyond!

Cindy Kaza currently stars in *The Holzer Files* on the Travel Channel. She has been extremely intuitive since childhood. At the age of 10 she had her first, memorable experience with a spirit. Days after losing her childhood friend in a fatal car accident, Cindy woke up in the middle of the night to see her friend standing next to her bed. At the time, she dismissed this experience and convinced herself that it was just a dream. It wasn't. She finally realized in her early 20's that she was having psychic and mediumistic experiences all along. During this "awakening", she began searching for answers, becoming more aware of her multi-faceted abilities as a psychic medium. She began training in the United States and has been frequenting Lily Dale since 2010. She has also studied extensively at the Arthur Findlay College in Stansted, England and at De Zwanenhof in The Netherlands. Cindy believes in compassionately sharing her gifts with others while also helping others to open the gifts that they possess, too!

& Corky Larsen*

7:00pm-10:00pm
Assembly Hall & Zoom
\$50.00

History has always been written by the victorious, which, given the imbalance of power meant that the divine feminine was almost always written right out. We will begin by examining the possible roles that women played in ancient times, along with what they did to preserve the love energy that makes up the divine feminine. We will then move to the Middle Ages and discuss the groups that were dedicated to protecting that energy and what they had to do for us. And then we will jump to today where we will discuss what is shifting, who is helping that shift take place, what the future holds, and the role you agreed to play in this lifetime to encourage this change. In this workshop, you will learn about: The powerful healing abilities of The Magdalenes and the role played by the women healers 2000 years ago, Cathars and Templars of the Middle Ages and their mission to preserve love, what we can do today to connect with the divine feminine using Aramaic toning, vocalizing, and meditation.

SPIRIT CALLING – BILLET MESSAGES FROM THE OTHER SIDE

John C. White

8:00pm-9:30pm, Auditorium
\$20.00

Your loved ones in Spirit visit you often. They wish – most of all – to bring their love, help, and guidance as they walk with you through your life every day. They have also come with you to Lily Dale, the place where Spirits abound! How happy they'll be when they see a new way (and yet also a very old way) to reach out to you – the Billet!

Billet is the French word for ticket, bill, or note. It's a method that the old-time Spiritualists used in the 1800s as a different way to get messages for people in the audience. Each member of the audience writes some identifying word on a piece of paper, which then gets folded and placed into a basket with the other papers from the rest of the audience. Then the medium picks one folded paper out of the basket, and without reading the name on the paper proceeds to give the reading – without opening the paper and identifying the recipient until the message is done. Though there isn't enough time for each person in the audience to get a message, there will be many insights to be gained by everyone as they listen and wait to see where each message will be delivered.

You'll find that it's a fascinating way to communicate with Spirit and go deeper into the world beyond! So, come and get your ticket punched! The next stop is the mail room of Spirit!

John C. White has been a teacher of the spiritual sciences for over 40 years. He travels throughout America, Canada, and India teaching on topics that include: channeling the higher mind; guides, angels, & masters; medical intuitive; past life regressions; lucid & spiritual dreaming, and other spiritual subjects. You may have seen him on the The Discovery Channel, the Vision Channel, and HBO. He has a unique ability to help others discover their own natural intuitive gifts. John resides in Lily Dale, New York, the largest Spiritualist community in the world. He is a practicing medium, teacher, lecturer, and intuitive counselor. He is the co-founder and current Vice President of the Spiritual Science Fellowship in Montreal, Canada. In 2017 he was awarded an honorary PhD from the International Institute of Integral Sciences.

LEARN OUTDOOR MEDIUMSHIP IN LILY DALE

Neal Rzepkowski

9:30am-7:00pm, Leolyn Garden Room
 \$145.00, Limit of 6 intermediate or advanced mediums

Lily Dale offers one of the best places in America, and in the world, for mediums to develop, enhance, and experiment with their skills. Both students and professionals benefit from their experience here. Join Neal as he facilitates our group to try new things and learn from each other. Neal requires all participants to give at least 1 message in public at the 4pm and 5:30pm outdoor services. Our class will review various styles of mediumship and practice these on each other. We will observe these at the 1pm Inspiration Stump service. Later, we will discuss what we have witnessed and practice our mediumship. We will participate in the other 2 public message services at Forest Temple and Inspiration Stump, and review our work after each service. This workshop is for intermediate or advanced students only.

Neal Rzepkowski, M.D. is NOT a “born medium”. It took him a year and a half in development circle study before he was able to deliver his first recognizable message. His first public message in 1973 at Forest Temple made no sense at all to the person he gave it to. (Hey, you’ve got to start somewhere!) He failed testing for medium registration in Lily Dale in 1988 but passed in 1989. He also passed a review for certification by the Forever Family Foundation. He says he benefits from classes like this which push him (and attendees as well) outside their “comfort zones”.

Friday, 7:00pm-10:00pm

The five keys are:

1. Psychic intelligence
2. Emotional intelligence
3. Mental intelligence
4. Intuitive intelligence
5. Spiritual intelligence

Gifts of mediumship, Akashic Records, hypnosis, medical intuitive.

The alchemist knows how to set up the environment so the phenomenon of mediumship psychic abilities and healing can happen. Everything is energy, and that's all there is to it.

All spiritual gifts are contained in and subject to the natural spiritual laws. Match the frequency of the gifts of the Spirit that you want to manifest and you cannot help but to manifest that gift. It can be no other way. This is not Philosophy, it's Physics.

In this class, we learn special meditations known and used by the masters to manifest your personal gifts of mediumship, tuning into the Akashic Records, lucid dreaming, and medical intuitive.

Saturday, 10:00am-1:00pm

Learn how to integrate eastern spiritual disciplines and enhance your intuition and mediumship

1. Awaken your intuitive intelligence and the gifts of the Spirit
2. How chanting invokes the presence of spiritual masters and teachers
3. Understanding and working with pranayama, chi to awaken kundalini
4. Mindfulness known as "Vipassana": insight meditation and mediumship
5. Mudras to open the Nadis, channels of higher awareness

Saturday, 2:00pm-5:00pm

Past lives and the Akashic Records

The natural law of unlimited consciousness. The Akashic Field consists of a subtle sea of fluctuating energies from which all things arise: (it could not arise if it was not already there) deep in the center lays a seed, atoms and galaxies, stars and planets, spirit worlds and all living beings within, and even consciousness. This zero-point Akashic Field is the constant and enduring memory of the universe.

In the center of your being lies a seed which has sprung what ever is.

Sunday, 2:00pm-4:00pm

Next-Level Mediumship with HYPNOSIS

Hypnosis is a trance-like state of heightened awareness.

Hypnosis is not something imposed on people, but something they do for themselves. A hypnotherapist simply serves as a facilitator to guide them.

Once in a state of hypnosis, under the guidance of the hypnotherapist, the client is able to take control over any involuntary thoughts, behavior, or feelings taking place in the sub-conscious, bringing about the desired results they want.

1. Special hypnosis programming to awaken your higher self
2. Hypnosis and trance channeling
3. Hypnosis and awaking your natural talents
4. Hypnosis and healing

Sunday, 5:00pm-7:00pm

Next-Level Mediumship with BILLET READINGS

Billet readings: Discover how to give a reading on a person, just by holding a piece of paper with their name on it (this is done without knowing whose name is on the paper). One of the natural laws is rhythm, in the training letting your intuitive mind flow doing one after another. Without knowing the names on the billet and confirming your results, this is an amazing way of learning your intuitive language which will enhance your psychic and mediumship abilities.

Everything we touch leaves our imprints on the sands of time. Learn how to develop your psychic ability by intuitively reading.

WHAT IS A GOOD READING?
Timothy J. Brainard

2:00pm-5:00pm
 Lyceum Building & Zoom
 \$50.00

There is nothing in the world more important than good communication. A good reading is another form of communication as well as the ability to listen. A good reading should strive to lift others up, to encourage you in your life to set an example that will be an inspiration to others. A good reading should be sensitive and responsive to the dreams and ambitions of others and show sincere appreciation for his or her achievements through greater intuition and guidance.

SPIRIT CALLING – BILLET MESSAGES FROM THE OTHER SIDE

Neal Rzepkowski
 8:00pm-9:30pm, Auditorium
 \$20.00

Your loved ones in Spirit visit you often. They wish – most of all – to bring their love, help, and guidance as they walk with you through your life every day. They have also come with you to Lily Dale, the place where Spirits abound! How happy they'll be when they see a new way (and yet also a very old way) to reach out to you – the Billet!

Billet is the French word for ticket, bill, or note. It's a method that the old-time Spiritualists used in the 1800s as a different way to get messages for people in the audience. Each member of the audience writes some identifying word on a piece of paper, which then gets folded and placed into a basket with the other papers from the rest of the audience. Then the medium picks one folded paper out of the basket, and without reading the name on the paper proceeds to give the reading – without opening the paper and identifying the recipient until the message is done. Though there isn't enough time for each person in the audience to get a message, there will be many insights to be gained by everyone as they listen and wait to see where each message will be delivered.

You'll find that it's a fascinating way to communicate with Spirit and go deeper into the world beyond! So, come and get your ticket punched! The next stop is the mail room of Spirit!

**THE CHAKRAS,
KUNDALINI, &
MEDIUMSHIP**

Judith Rochester

Fri. 7:00pm-10:00pm, Sat. 9:30am-12:30pm, Sun. 1:30pm-4:30pm,
Lyceum Building
\$150.00

According to an ancient teaching, there is a dormant power within us all that can be awakened to bring about the higher states of consciousness of the seer, saint, and mystic. It also accounts for the creative genius of the great musicians, artists, and poets as well as the brilliance of the renowned scientists, philosophers, and thinkers throughout the ages. Even the gifts of leaders, social reformers, and humanitarians of historical acclaim have been attributed to this energy. In today's world, enlightenment need not be considered the prerogative of a select few. Everyone can find their way to these higher reaches of the heart, mind, and spirit. In this workshop you will learn how to begin to awaken this dormant power. Using this ancient teaching, you will discover the supernal nature of your higher self, your mediumship, and your path of illumination and oneness with Infinite Spirit.

Friday: Key to Your Higher Self

- Learn about the ancient system of the chakras and kundalini, and its significance for you today;
- Experience the benefits of a gentle kundalini meditation;
- Attune to each chakra to discover an aspect of your soul; embrace the spiritual power of your higher self and use it to help another;
- Meet your Spirit Master Teacher in your Sacred Place to understand the purpose of this learning for your soul and your mediumship.

Saturday: Enhance Your Mediumship with New Life

- Examine the kinds of gifts attributed to the awakening of the kundalini in past and modern accounts;
- Cleanse your chakras in a deep kundalini meditation; experience the gift of each center and realize the origin of your gifts of mediumship;
- Guided by Spirit, use your gifts to perceive the spiritual presences and energies in another's chakras;
- Open your chakra system as an instrument for your Spirit Master Teacher who helps you to refine your mediumship, envision the Spirit World through their perception and be entranced by their presence.

Sunday: Your Path to Enlightenment and Oneness

- Be inspired by the experiences of the enlightened;
- In a kundalini meditation with a focus on the heart chakra, experience your heightened capacity for loving service and its power to overcome the pitfalls of the spiritual journey;
- Discover the evolutionary power of the soul, in the crown chakra, for goodness and greatness;
- Let your Spirit Master Teacher draw up your kundalini and open your chakras to a higher plane where you experience a state of illumination and are gifted anew;
- Close with prayers for peace in yourselves and the world.

**UNLOCKING
THE SECRETS OF
CLAIRCOGNIZANCE**

Willa White

9:30pm-4:30pm, Lyceum Building
\$100.00

Have you ever felt that information just suddenly springs into your head from nowhere, and you receive guidance or knowledge that you know in your heart is true? You might be claircognizant. For someone with claircognizance, instincts and gut feelings are a gift of truth. A claircognizant is a person who simply KNOWS. Sometimes the information pertains to spirit contact, soul-to-soul, as a form of telepathy or sometimes to the past, present, or future. Cognizance means knowledge or awareness and so claircognizants experience enhanced intuition or clear thinking. We are all capable of functioning at a high level of perception and personal intuitiveness awareness, but how many of us understand how to consistently tap into intuition and into knowing? With right practices and right intention, we can improve our "knowing". In this class, we will:

- Practice receiving a download of information to instantly help you in your life;
- Get useful tips for increasing the flows of "knowing" information for spirit contact mediumship and intuitive sessions;
- Discuss how to understand and accept the truth of our perceptions as we receive them;
- Find ways to develop claircognizance and your process of knowing.

Willa White is a spiritual medium who specializes in beautiful and emotionally-moving spirit contact with those who have passed. Her mediumship readings are consistently filled with healing, comfort, and proof of spirit communication. Many professional mediums and intuitives seek her out for teaching consultations to improve their skills and energetics. Willa has been teaching spiritual development classes for over 20 years. A Registered Medium at Lily Dale since 2003, Willa is featured in CNN's "Mediums of Lily Dale" and is personally recommended as a medium by many professional mediums and clients. Willa's classes are informative and FUN with many opportunities for hands-on learning!

**IN THE PRESENCE
OF SPIRIT: HOW TO
TEACH MEDIUMS**

Judith Rochester

Fri. 7:00pm-10:00pm, Sat. 9:00am-12:00pm & 1:30pm-4:30pm, Sun. 1:30pm-4:30pm, Lyceum Building

\$260.00 plus \$20.00 materials fee paid to presenter

A medium is taught from within by Spirit. In this workshop, you will learn how to honor this sacred way of the soul by helping others to unfold their gifts through the guidance of their own Spirit-Band. This requires you, the teacher, to work as a channel for your Spirit Teachers who open your gifts to the wondrous spirits and forces present when mediums genuinely seek spiritual growth. You will discover the joy in serving God and Spirit to assist students to deepen the sense of their own spirit and their connection to the Spirit World.

Session 1: Be an Instrument of Your Spirit Teacher

Communicate with your Spirit-Band and identify your unique teaching talents. Give a prayer, relaxation, and meditation for the class as a channel of Spirit.

Session 2: Lead with Your Soul

Open to the Spirit presences who come to guide and teach the members of the group. Lead and coach an unfoldment circle.

Session 3: Receive Your Inspiration from Your Master Teacher

Use your message to give a brief inspirational talk. Attune to Spirit for insight to prepare and design a learning session that reflects your special slant of mediumship.

Session 4: Embrace Your Teaching Service

As an instrument of Spirit, present a short segment of your class outline to a supportive group. Envision your teaching path of service ahead and offer prayers for peace.

Fellowships of the Spirit

...A place your soul can call home™

32 years of continuous spiritual teaching, coaching and inspirational, life-changing personal development.

We teach meditation, spiritual healing and mediumship.

We offer affordable courses and workshops taught by a faculty of internationally recognized experts in their fields. In the last 32 years we have helped hundreds of people just like you to successfully move forward on their spiritual paths, from whatever stage in their journey they find themselves to be:

FROM ABSOLUTE BEGINNERS TO SEASONED PROFESSIONALS

"Though I've studied many other places, Fellowships of the Spirit's Spiritual Insight Training gave me the tools I needed to "connect the dots," bringing form and format to what I'd always known, but couldn't define or articulate. This was the single most important stop on my spiritual journey. For me, it truly IS the place my soul calls home."

Martie Hughes, Registered Medium, Lily Dale, NY

"No matter how many events I've had the pleasure to attend at Fellowships of the Spirit, I always know a few things are guaranteed to happen: There will be several wonderful sparks of insight - powerful "light bulb" moments - in which I recognize and tap into gifts and abilities that I've always felt were inside, providing me with the keys to unlocking that "inner knowing."

A PLACE FOR PHYSICAL MEDIUMSHIP

“Physical Mediumship” or “Materialization Mediumship” is a Apport gift from the Spirits very unique and uncommon form of mediumship. It is not practiced in Lily Dale. There, all of the registered mediums are allowed to practice what is termed “mental mediumship”. The main goal of Spiritualists who practice mental mediumship is to give the person going for a reading evidence that an individual's consciousness and love continue after they have passed on from the physical world. Readings like this can be very healing and evidential. In general, this done when a spirit loved one impresses a message on the medium's mind. This is then shared with the client. (hence the term “mental mediumship”) The clients themselves may have no awareness of the departed spirits who are sending these greetings and messages to the medium.

In physical mediumship, however, **everyone** present is able to witness things that the Spirits are able to do. The goal is not focused so much on evidence that an individual soul can send love and greetings (although that can happen). Rather it demonstrates the effect that Spirits can have on the physical dimension. In fact, “Modern Spiritualism” started with such phenomena in 1848 in the Fox family cottage. There, all present could hear knocks in the wall, and correct answers to a code that was worked out between the Fox sisters and the communicating spirit. These physical “phenomena”, produced for all present to experience with at least one of their 5 physical senses, can occur in “physical seances” as well as native ceremonies from most continents.

Neal Rzepkowski lives less than 5 miles from Lily Dale and offers these experiences to folks by inviting physical mediums and native medicine folks to the seance and ceremony room at his home. Usually there is room for about 15 guests to experience these amazing demonstrations of what Spirits can do. In addition, he also offers native-style prayer ceremonies or “sweat lodges” on his property, which is called “TiOmime”’. (tee-O-mim-may)

For more information, and to receive his (irregular) newsletter informing you of such events, you can contact him at docneal@mac.com or “snail-mail” him at Neal Rzepkowski, 3251 Burnham Road, Cassadaga, NY 14718
