ALASKA'S MOST WANTED LINE ■ UP

Midnight Sun crafts some of the most sought-after beer in the world. This ongoing and ever-growing line—called Alaska's Most Wanted—includes creative successes from our themed beer series as well as amazing one-offs. The beers in this line-up will be produced and released as time and tank space permit but they will be repeated.

We hope you love our extra special brews as much as we do. A gracious thank-you to our long time "every weather" Alaska fans for years of love and support. And an open-armed welcome to the new aficionados who are just discovering our very characterful beers.

Somber and smoky,
BARFLY saunters into the room slowly.
Thick smoke. Cool swagger. Good wood.
Too much brass. Sticky leather. Slow
glances. Lingering looks. The only thing that
didn't make the glass was maraschino
cherry. Bring your own and
wear out your welcome.
