

proudly presents its

2010 POP TEN SERIES

**Pop Culture. Top Ten.
Another year of eclectic beers.**

This is Midnight Sun's fourth annual series of beers.

We use this platform as a springboard for experimentation with styles, ingredients, processes.

So far, so good.

We've experienced success, gained knowledge and garnered attention for these mostly "strange brews."

We are forging forward, growing ground, making momentum.

And these beers, in turn, become muses for beers we add to our year-round, seasonal and recurring line-ups. So, dear beer fans, make your preferences known!
